Hi Guys,

My work day is very busy...taking a break to submit thoughts after last night's meeting.

1. The "community engagement" Phase 1 was a complete surprise. I thought community engagement meant educating the citizenry about our site selection work on the AHTF. Other members were visibly upset. Since it pertains to L-7, which has been a subject of discussion with the public, on social media, and within our AHTF discussions I think it should have been part of the report.

2. It is very important to me as a community member that this AHTF report be **NON-BINDING and informational only to the new City Council** to be sworn in on December 11. In other words, I am not in support of any kind of binding vote taken by the current city council to burden the newly-elected City Council members. Don't know the correct political terminology...

3. It is important to communicate that there is not unanimous support of the AHTF Report. One example of inclusion of non Site selection items such as "shared housing" being included at the last minute. I was not the only member who opposed inclusion of this item.

4. If not 100% of the burn site is under a cap this should be pointed out. This site holds promise to help with the affordable housing site selection.

Lastly, I want to thank the wonderful hard working staff for your help with the huge admin tasks involved with the AHTF.

I look forward to more community volunteer opportunities.

Sincerely,
Felicia
