

**CITY OF ENCINITAS
DEVELOPMENT SERVICES DEPARTMENT
NOTICE OF PUBLIC WORKSHOP
SMALL WIRELESS FACILITIES**

On August 21, 2019, the City of Encinitas City Council adopted Urgency Ordinance No. 2019-12 and Resolution No. 2019-66 creating new City Council Policy No. C035 to regulate small wireless facilities and other infrastructure deployments in the public rights-of-way. Both documents are available on the City's website in the [Small Wireless Facilities webpage](#).

The purpose of the Policy is to establish reasonable and comprehensive standards and procedures, including but not limited to the facilities' siting, aesthetics, construction, operation, modification, and removal, for the permitting of small cells and other infrastructure deployments within the City. The Policy aims to promote the community's interest of protecting the City of Encinitas' visual character, consistent with recent FCC regulations preempting local zoning discretion.

The City Council directed staff to conduct a public workshop to provide the community and stakeholders an opportunity to give input regarding small wireless facilities. The goal of the workshop is to identify opportunities to enhance the City's Ordinance (EMC Chapter 9.70) and Small Wireless Facilities Policy No. C035, to provide the maximum degree of protection for the community within the confines of federal and state laws.

Please mark your calendars accordingly. All interested parties are invited to attend the public workshop.

MEETING DETAILS:

WHEN: Monday, September 23, 2019, 5:00pm – 7:00pm
