**STRATEGIC PLAN:**

This item aligns with the Organizational Effectiveness and Efficiency focus area, embracing community outreach, and delivering efficient and effective services.

**FISCAL CONSIDERATIONS:**

There are no significant fiscal impacts associated with conducting this discussion.

**BACKGROUND:**

On August 30, 2017, the City Council adopted Resolution 2017-82 declaring the City of Encinitas' intent to transition from an at-large Council Member election system to a district-based Councilmember election system, outlining specific steps to be undertaken to facilitate the transition and estimating a time frame for action pursuant to Elections Code § 10010. Section 10010 requires a minimum of five public hearings in connection with the

establishment of electoral districts. The City published notice of all five Public Hearings required under Section 10010 on August 25, 2017. The City published an additional notice of the October 11, November 8, 2017, and November 15 public hearings on September 29, 2017. The first three (3) of five (5) public hearings pursuant to Elections Code § 10010, were held on September 6, September 20, and October 11, 2017. The first two hearings allowed for the Council and community to comment on the composition of the districts. The October 11, 2017 hearing allowed for the Council and community to comment on the maps and sequence of elections that had been proposed up to that date. At the September 20, 2017 public hearing, the City Council also established a deadline of October 18, 2017, for the public to submit maps for consideration at the November 8, 2017 hearing.

In addition, the City Council directed that staff conduct a public workshop on October 7, 2017, for the purpose of providing further information and a demonstration of the mapping tools available for the public to propose suggested district maps. The City Council further held a special City Council meeting on October 30, 2017, for the purpose of providing additional discussion by the public and City Council of the proposed maps and sequence of elections.

Following public comment and discussion by the City Council, the City Council declared a preference for the maps titled "Citizen 015" and "Citizen 016" at their October 30, 2017 meeting. The Council also directed that those maps be given further consideration at the public hearing to be held on November 8, 2017. At the fifth and final public hearing on November 15, 2017, the Council will vote to consider final adoption of an ordinance establishing district-based elections.

#### **ANALYSIS:**

Citizen Maps 015 and Map 016 both provide for district-based elections of four Councilmembers and an at-large election of the Mayor. Citizen Map 015 provides for the election sequencing in 2018 of District 4, and an election in either District 1 or 3. In 2020, Council elections in District 2 and the remaining District 1 or 3 would be held. If the City Council were to select this map, the Council would also need to specify the election sequencing for Districts 1 and 3.

Citizen Map 16 provides for elections in District 3 and 4 in 2018, and elections in Districts 1 and 2 in 2020. The transition to district-based elections would be complete in 2020 with all maps proposed.

The purpose of the meeting this evening is to allow the public to provide input regarding the content of the proposed maps and sequence of elections and to adopt a final map and sequence of elections. Assuming adoption of such a map, the Council is also being asked to introduce an ordinance that would incorporate the selected map and election sequence.

#### **ENVIRONMENTAL CONSIDERATIONS:**

The action being considered by the City Council is exempt from the California Environmental Quality Act (CEQA) because it is not a "project" under Section 15378(b) of CEQA Guidelines. The action involves an organizational or administrative activity of government that will not result in the direct or indirect physical change in the environment.

# Citizen 002 Submitter Comments

The draft “Pick Just 5” map (Citizen 002) has five contiguous and relatively compact districts. In this map, District 3 achieves a maximum representation of Hispanic residents of 27 percent. While the representation of Hispanic residents in District 3 is substantially higher than in any of districts drawn in the initial draft maps provided by the City of Encinitas, this value is still significantly less that that achieved in the “Pick 6” (Citizen 003) and “Strawman 5” (Citizen 006) maps.

## Citizen 003 Submitter Comments

In comparison (to Citizen 002 and Citizen 006), the draft “Pick 6” map (Citizen 003) has six distinct voting districts and results in a contiguous and relatively compact. In this map, District 3 represents a population that is 30 percent Hispanic.

Advantages for having six districts include increased representation of all residents (approximately 1 council member per 10,000 residents) as well as council votes (when the Mayor participates) that will always result in a majority decision and avoid ties and stalemates.

My five district plan reduces the number of coastal districts from 3 to 2 in order to reduce the leverage residents in the I-5 corridor will have.

## Citizen 006 Submitter Comments

The draft “Strawman 5” map (Citizen 006) was designed to show the potential increase in representation of underserved Hispanic residents in a single district when avoiding splitting and dilution. While District 3 (nor Districts 1 and 4) is not compact, it is contiguous and Hispanic residents comprise 31 percent.

# Citizen 007 Submitter Comments

As I have written before, the citizens of Encinitas were promised in 1986 that if they would vote for incorporation, they could keep their community borders, character and names. None of the districting maps presently proposed appear to fulfill that pledge.

I propose that one of the two following plans be considered because they do not infringe upon or change any of the existing community boundary's or use the names of the communities for identification. Further, these plans allow all elected representatives to represent constituents from sea to mountains rather than one community.

## **Plan A. [007]**

District 1. Beginning at the northern most point of the city, scroll down to a point where 25% of the population is included within the area when a due east line is drawn across the entire city from the ocean to the eastern border of Olivenhain. Residents living on divided properties with 50% or more of the land mass on the north side of the dividing line shall be included in this District.

District 2. Beginning at the southern boundary of District 1. scroll down to the point where the next 25% of city's population from ocean to the easterly border of Olivenhain is included and establish a second due east boundary line.

District 3. Repeat previous steps.

District 4. Same

## **Plan B.[008]**

Same as Plan A except divided into 5 Districts of 20% of the population instead of 4.

Please protect the 5 communities that make up the City of Encinitas, by selecting a districting plan that does not destroy their character or the pride that residents have in them.

## Citizen 009 Submitter Comments

The map that I have proposed complies with the legal population requirements and also serves to preserve our communities of interest. I have tried to take into consideration the following community character school districts shopping districts and commuter patterns.

# Citizen 012 Submitter Comments

A 5 district map that attempts to follow our existing boundaries most closely. A slight bit of jaggedness at the border of Old Encinitas and Leucadia to pull more of the high-priced homes along the coast into the Leucadia sphere and to claim some high % hispanic areas for Old Encinitas. Cardiff has the highest deviation due to geographic concerns at -2.6%. All other communities at less than +0.9% deviation.
