

Five community workshops will be held in each neighborhood in October to solicit community input on issues and opportunities associated with the Coastal Mobility and Livability Study. The five workshops will be supplemented by complementary online activities and pop-up workshops at community events.

Proposed Workshop Format

Station Title	Overview of Station
What is the Coastal Mobility and Livability Study?	Overview of study and answer questions about study scope, timeline, public engagement opportunities, and relationship to other studies
Coastal Mobility and Livability Study Setting	Overview of guiding policies and how they relate to potential issues and opportunities
Existing Conditions/ Issues and Opportunities	<ol style="list-style-type: none"> 1. Augment existing conditions with info from the community 2. Map-based Input on Issues and Opportunities
Interactive Mapping Station	Interactive map available to respond to specific, detailed questions by participants
