Total		85.53	63.12	1,504

Notes:

1. HCD has stated to the City that vacant parcels must be entirely unimproved and separately subdivided parcels, and Table 2-6 reflects this direction. However, the City believes that the following sites should also be considered to be vacant: Site 01 (50 units) consists entirely of unimproved land, but has not been subdivided from the improved part of the site. Site 07 (33 units) consists of unimproved land and an abandoned, vacant structure. Site AD2c (30 units) has utility lines on a portion of the site which have been deducted from net acreage, but the parcel is otherwise entirely unimproved, and the utility lines would not prevent an owner from developing the site for residential units. In the City's view, these sites should be considered vacant, adding 118 additional units to the Unit Yield on vacant property, for a sub-total of 727 units on vacant sites, far above 50% of the unmet RHNA need for the planning period.

2. HCD does not consider Site numbers 06a and 06b adequate sites to meet any portion of the Regional Housing Needs Allocation for lower-income households. The City acknowledges that it should not consider these sites available pursuant to Gov. Code Section 65863 absent additional information regarding site availability and owner interest in developing a residential project.

3. Unit Yield anticipates that this site will be developed for mixed-use.

Table C-3: Percentage of VL/L Sites by Site Type		
Site Type	# of Units	% of Remaining Lower Income RHNA Allocation (1,141)
Vacant	609	53%
Non-vacant	895	78%
Total	1,504	132%
RHNA Allocation (including carryover) for VL/L Income Categories: 1,286 Units Constructed and Estimated ADUs: 145 Remaining RHNA Allocation for VL/L Income Categories: 1,141

NET ACREAGE CALCULATIONS

Very Low/Low Income RHNA Candidate Sites

CALCULATION METHOD

The net acreage for each candidate site was calculated based on the gross acreage (for all parcels included in the site) minus the acreage deemed partially or completely undevelopable based on existing steep slopes and known environmental constraints. Environmental constraints were determined based on known site information for the parcels where that information was available and other sources, such as the City's Local Coastal Program and site observations. **The site capacity was determined by applying a 25 du/ac standard to the net acreage for each candidate site.**

The following calculation methods apply to slope constraints (per the City of Encinitas Municipal Code for purposes of calculating density):

- All land in 0-25% slope of natural grade is allowed to use 100% of acreage.
- All land in 25-40% slope of natural grade is allowed to use 50% of acreage.
- All land in 40% + slope of natural grade is allowed to use 0% of acreage.

All acreages shown on the following sheets include any applicable acreage deductions from the gross acreage. The informational sheets include a note either stating that there were no known topographic or environmental constraints or detailing the acreage removed from the gross acreage and the reasoning.

WATER AND SEWER AVAILABILITY

As discussed in Appendix B, each site has been evaluated to ensure there is adequate access to water and sewer connections. Each site is situated adjacent to a public street that has the appropriate water and sewer mains and other infrastructure to service the candidate site.

DEFINITIONS

Vacant Parcel: HCD has stated to the City that vacant parcels must be unimproved. Sites containing abandoned, non-habitable, or vacant structures or powerlines are considered to be non-vacant by HCD unless the owner has applied for, and been issued, a demolition permit. Similarly, vacant portions of parcels designated for housing development are considered by HCD to be non-vacant unless the vacant portions of the site have been subdivided from the non-vacant portions. The designations of vacant and non-vacant parcels in this Appendix C conform to the direction provided to the City by HCD.¹

Non-Vacant Parcel: Non-vacant parcels are underutilized or developed parcels and contain existing development or established uses. These may include temporary structures associated with an active use (i.e., agricultural greenhouses) or other uses currently operating on the site.

Mixed-use Site Capacity: For mixed-use sites within the Encinitas North 101 and Downtown Specific Plan areas, capacity was calculated per Section 3.1.2.D of the Specific Plan, which states a maximum lot utilization of 90% and that residential uses shall not exceed 50 percent of the gross building floor area for the development site. The capacity of other mixed-use sites was determined based on the area available for housing development, largely determined by the owner.

Site Capacity: All parcels shown with fewer than 16 units are in common ownership with one or more adjacent parcels or are likely to be consolidated with one or more adjacent parcels based on owner representations. In these cases, the parcels are considered one site that can accommodate at least 16 units.

Owner-Interest: Sites with “owner interest” listed in the description indicate that the City has been directly contacted by the property owner and received an acknowledgement of their interest in writing, either by email or by a formal letter.

NOTES:

¹The City believes that vacant portions of parcels designated for housing development and sites containing only abandoned, non-habitable, or vacant structures or powerlines should also be considered to be ‘vacant’ because they contain no existing use that prevents an owner from developing the site.

CANNON PROPERTY (PIRAEUS) SITE NUMBER 02

SITE DESCRIPTION

This site is a vacant property at the corner of Piraeus Street and Plato Place, both of which are 2-lane local streets. The southern portion of the site is flat due to previous grading, with the majority of the rest of the site sloping up towards a flat pad on the northeast corner. The owner has expressed interest in developing this site for residential uses.

SITE FEATURES

- Vacant, natural landscape
- Partially graded
- Some mature trees/vegetation on the northern portion of the site
- Slight topography change

PARCEL SIZE CALCULATION

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas. Therefore, the parcel's net acreage equals the full gross acreage.

ENCINITAS BLVD & QUAIL GARDENS SITES

SITE NUMBER 05

SITE DESCRIPTION

Parcel 2581111600 is a vacant parcel adjacent to a 6-lane arterial with bicycle lanes in both directions and a raised concrete median. The property has an access road and an existing medical office use to the west. The site has a moderately steep slope from the southern portion of the site to the northern portion and contains existing walking paths and an unpaved access road.

Parcel 2581304500 is a narrow vacant property adjacent to a 6-lane arterial with bicycle lanes in each direction and a raised concrete median. The site rises steeply from the street.

Parcel 2581308100 is a vacant parcel adjacent to a 6-lane arterial with bicycle lanes in both directions

and a raised concrete median. The site contains vehicular access points from Encinitas Blvd and Quail Gardens Dr. The site contains a moderate slope from the western portion up to the eastern portion of the site.

Parcel 2581303400 is a vacant parcel adjacent to multi-family residential to the north and vacant parcels to the west and south. It is accessed by a private access road from Quail Gardens Drive. A vacant, uninhabitable structure that was located on the property was recently demolished by the owner

APN(S) (Ownership)	2581111600, 2581304500, 2581308100, 2581303400 (SHOWPROP DOWNEY LLC)	PARCEL SIZE (AC) (GROSS/NET)	2581111600 - 2.20/2.20 2581304500 - 0.38/0.23 2581308100 - 1.31/1.31 2581303400 - 1.02/1.02 Total: 4.91/4.78
SITE STATUS	Vacant	MAXIMUM DENSITY	30 DU/AC
ADDRESS(ES)	696 & 550 Encinitas Blvd, Quail Gardens Dr	MINIMUM DENSITY	25 DU/AC
NEIGHBORHOOD	Old Encinitas	UNIT CAPACITY	119
GENERAL PLAN LAND USE	Office Professional (OP)	CONSTRAINTS	<ul style="list-style-type: none"> Steep topography on some portions. Acreage reduced per City code.
ZONING	OP		

and went through the City's process for building removal.

The owner has expressed interest in developing all of these parcels for residential uses. All parcels are under one common ownership.

SITE FEATURES

- One vacant, 1-story single-family house
- Some manufactured slopes that are determined to not be a constraint on future development
- Primarily vacant, natural land
- Flat, graded area on the eastern portion

PARCEL SIZE CALCULATION

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas on the majority of the site. Therefore, the parcel size reflects the full gross acreage for the following parcels:

- 2581111600
- 2581308100
- 2581303400

Parcel 2581304500 contains 0.15 acres with slopes greater than 40% (Not developable per City of Encinitas Municipal Code). 0.15 acres was removed from the overall gross site acreage to get the 4.78 acre parcel size shown in the table on the preceding page.

RANCHO SANTA FE PARCELS (GAFFNEY/ GOODSEN)

SITE NUMBER 08 (a,b)

SITE DESCRIPTION

Parcel 2592313200 is a vacant parcel adjacent to a 2-lane arterial with bicycle lanes in each direction. The site is surrounded to the north and west by existing low density single-family residential uses. There is a moderate slope on the site rising from the northeast portion of the site to the southern portion.

Parcel 2592312800 is a developed parcel with several 1-story residential structures. It contains a private access road that connects to an adjacent 4-lane major arterial. The site contains existing mature vegetation.

Parcel 2592313000 is a developed parcel with a single 2-story residential structure and is landlocked by low density single-family residential uses, a

vacant parcel, and a strip commercial center. The site contains existing mature vegetation.

Parcel 2592313100 is a developed parcel with a single 1-story residential structure and is landlocked by low density single-family residential uses and a vacant parcel. The site contains existing mature vegetation.

Parcels 2592313200, 2592312800, and 2592313000 are under one common ownership. (Olivenhain Town Center 5.6 L P)

SITE NUMBER 08a

APN(S)	2592313200 (OLIVENHAIN TOWN CENTER 5.6 L P)	PARCEL SIZE (AC)	1.75/1.45
SITE STATUS	Vacant	MAXIMUM DENSITY	30 DU/AC
ADDRESS(ES)	Rancho Santa Fe Dr	MINIMUM DENSITY	25 DU/AC
NEIGHBORHOOD	Olivenhain	UNIT CAPACITY	36
GENERAL PLAN LAND USE	Rural Residential 1.01-2.00 (RR2)	CONSTRAINTS	Slight topography
ZONING	RR2		

Parcel 2592313100 is under a separate ownership (Gaffney David R & Rica G Revocable Trust 04-11). This parcel is landlocked by parcels with separate ownership but could be developed as part of a larger project.

The owners have expressed interest in developing this site (all parcels) for residential uses.

SITE FEATURES

- One vacant, natural parcel
- Moderate slopes on the vacant parcel
- Approximately three residential structures ranging from 1-2 stories and spread across multiple parcels
- Existing mature trees and vegetation
- Paved access road

PARCEL SIZE CALCULATION

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas on Parcels

2592313000 and 2592313100. Therefore, the parcel's net acreage equals the full gross acreage for this parcel.

The net acreage shown for Parcel 2592312800 reflects the following deductions from the gross acreage:

- 0.61 acres contain slopes between 25 - 40% (developable at 50% per the City of Encinitas Municipal Code)

The net acreage shown for Parcel 2592313200 reflects the following deductions from the gross acreage:

- 0.59 acres contain slopes between 25 - 40% (developable at 50% per the City of Encinitas Municipal Code)

0.60 acres (50% of the overall 1.20 acre reduction due to slopes) was removed from the overall gross acreage to get the parcel size shown in the adjacent table.

SAGE CANYON PARCEL

SITE NUMBER AD1

SITE DESCRIPTION

The site is a vacant property surrounded by natural open space and adjacent to a four-lane major road with a striped center turn lane, bicycle lanes going both directions, and parallel street parking along the west side of the road. The parcel is currently subject to a purchase and sale agreement. Based on previous development plans, there are some known environmental constraints that shrink the gross buildable area.

SITE FEATURES

- Existing mature trees and natural vegetation
- Some steep slopes adjacent to El Camino Real
- Previously graded, vacant area
- Private access point off a roundabout shared by a single-family residential neighborhood

PARCEL SIZE CALCULATION

Net acreage shown in the table under parcel size was determined from the net buildable area based on numerous studies of the topographic and environmental constraints by the owner.

BALDWIN & SONS PROPERTIES

SITE NUMBER AD2 (a,b,c)

SITE DESCRIPTION

Parcels 2570203600, 2570203700, 2581308000, 2581308600 are vacant parcels adjacent to Quail Gardens Drive, a 2-lane arterial with bicycle lanes in each direction and a center turning lane.

Parcels 2581309300, 2581309400 are vacant parcels surrounded by other vacant parcels under the same ownership, single-family residential uses to the east, and commercial uses to the south. The parcels are landlocked with no direct access to a street, unless developed in conjunction with the adjacent parcels as shown. The owner has expressed interest in developing these parcels for residential uses in conjunction with the parcels listed in AD2a, AD2b, and AD2c, all of which are under the same ownership.

Parcels 2581308200 and 2581309100 are non-vacant parcels with a power line easement running along the northern portion of each parcel.

All parcels associated with this site are under one common ownership. (Quail Meadows Properties LLC) The owner has expressed interest in developing sites AD2a, AD2b, and AD2c for residential uses as part of

GREEK CHURCH PARCEL

SITE NUMBER 01

SITE DESCRIPTION

This site is a portion of a property owned by the Greek Orthodox Church and part of a larger parcel with existing multi-family residential uses and an existing church. The owner has expressed interest in developing the site for affordable senior housing. Residents will not be required to be of any particular religious faith or have direct affiliation with the Church.

SITE FEATURES

- Primarily vacant, open space
- Concrete pad

PARCEL SIZE CALCULATION

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas. Therefore, the parcel's net acreage equals the full gross acreage.

Owner has indicated they are interested in developing 2.00 acres of the 2.50 acre parcel.

ARMSTRONG PARCELS

SITE NUMBER 06 (a,b)

SITE DESCRIPTION

Parcel 2574702400 is a vacant property adjacent to an 8-lane major arterial. The site is mostly flat due to previous grading, with several existing retail uses to the north and existing office uses to the south. This property has a small area of existing wetland vegetation which has been deducted from the site acreage calculation below and is explained further in the Parcel Size Calculation section.

Parcel 2574702300 is a developed parcel with an existing retail garden center, paved surface parking lot, and private drive aisles. The site is adjacent to an 8-lane major arterial with bicycle lanes in each direction and a raised concrete median.

SITE FEATURES

- One vacant, unimproved parcel
- Small area of existing wetland vegetation on the vacant parcel
- Existing Armstrong retail garden center and surface parking lot in use

PARCEL SIZE CALCULATION

The net acreage shown for Parcel 2574702300 reflects the following deductions from the gross acreage:

SITE NUMBER 06a

APN(S) (Ownership)	2574702400 (WHITE BYRON F 2001 REVOCABLE TRUST 08-08-01)	PARCEL SIZE (AC) (GROSS/NET)	1.92/1.06

JACKEL PROPERTIES

SITE NUMBER 07

SITE DESCRIPTION

Parcel 2160412100 is a vacant property that sits between existing commercial uses and attached residential. The site has an approximately 55' wide driveway adjacent to North Highway 101, a four-lane arterial with bike lanes in each direction and a center median. The site slopes gently up from the east to the west with a slope of less than 25 percent.

Parcel 2160412000 is a non-vacant parcel adjacent to a four-lane arterial with bike lanes in each direction and a center median. The site contains a vacant restaurant and a large surface parking lot with a single ingress/egress point. The owner states that there is no existing lease and he does not plan to re-let the building.

The owner has expressed interest in developing both of these sites for residential and commercial uses. Both parcels are under one common ownership. (F C A Encinitas LLC) The planned multimodal improvements on Highway 101 will not impact the area of the site.

SITE FEATURES

- Partially vacant, natural parcel
- Existing 1-story vacant restaurant with outdoor patio
- Large surface parking lot
- Moderate slope adjacent to Highway 10 (less than 25%)
- Existing mature trees and vegetation

PARCEL SIZE CALCULATION

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas. Therefore, the parcel's net acreage equals the full gross acreage. However, the unit yield has been reduced to reflect the owner's interest in mixed use development.

ECHTER PROPERTY

SITE NUMBER 09

SITE DESCRIPTION

This site is a large parcel containing mostly temporary greenhouse agricultural structures along with an existing single-family residential structure. The site sits at the junction of a major 4-lane arterial and a local 2-lane road. The owner has expressed interest in developing 250 residential units in conjunction with a working agricultural practice. The owner has completed conceptual renderings and a written description of potential future “Agrihood” housing and agricultural concept. See attached letters.

The Agricultural Zone provisions of the Encinitas Ranch Specific Plan in which the site is located encourage the continued agricultural use of portions of the Specific Plan Area and the provision of a favorable setting in which to continue agricultural operations. The “agrihood” concept proposed allows for the continued viability of an agricultural business on the site.

SITE FEATURES

- Several buildings serving the agricultural practice on-site
- Temporary covered structures and greenhouses

- Large service tanks
- Interior roads
- Single-family residence in southwest corner

PARCEL SIZE CALCULATION

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas.

However, only 9.85 acres of the 21.49 gross acres are designated for housing, with the remaining site intended to remain in agricultural use as an ‘agrihood’. This 9.85 is shown as the net acreage of developable area in the table below.

SUNSHINE GARDENS PARCELS

SITE NUMBER 12

SITE DESCRIPTION

Parcel 2581309700 is an underutilized parcel comprised primarily of a paved surface parking lot and a variety of retail uses in both permanent and temporary structures. The site is adjacent to a 4-lane major arterial with bicycle lanes in each direction and a paved center median. The site has been graded to be mostly flat with moderate slopes directly adjacent to Encinitas Blvd.

Parcel 2581309900 is an underutilized parcel comprised primarily of a single-story commercial building, a paved surface parking lot, and a variety of retail uses in both permanent and temporary structures. The site is at the intersection of a 4-lane major arterial and a 2-lane collector role.

The owner has expressed interest in developing these sites for residential uses. Both parcels associated with this site are under one common ownership. (CAM-MAR Growers)

SITE FEATURES

- 1-story commercial building
- A variety of retail uses
- Several temporary agriculture and outdoor sales related structures
- Large paved surface parking lot
- Unpaved dirt areas

PARCEL SIZE CALCULATION

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas. Therefore, the parcel's net acreage equals the full gross acreage for this parcel.

VULCAN & LA COSTA COSTA

SITE NUMBER AD8

SITE DESCRIPTION

This site is a non-vacant parcel with existing agricultural uses and several 1-story structures related to agricultural sales. The property is adjacent to N Vulcan Avenue, a two-lane local arterial. The majority of the site is occupied by temporary agricultural structures such as greenhouses. The owner has expressed interest in developing this site for residential uses. The low intensity of existing uses makes it a suitable candidate for potential residential development. The owners has expressed interest in developing this site for residential uses.

As set forth in many policies of the General Plan the City favors maintaining agricultural uses in the City yet does not require the continued use of agricultural uses.

SITE FEATURES

- Greenhouse structures and frames
- 1-story structures related to agricultural uses (sales/storage)
- Small paved parking lot

PARCEL SIZE CALCULATION

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas. Therefore, the parcel's net acreage equals the full gross acreage for this parcel.

SEACOAST CHURCH

SITE NUMBER AD9

SITE DESCRIPTION

Parcel 2582411000 contains four existing 1 and 2-story structures associated with the existing church facility on-site. There are two paved parking lots and community outdoor landscaped areas. The parcel is bordered by Regal Road to the east, the I-5 freeway to the southwest, and a mixture of office and residential uses to the north.

The owner has expressed interest in developing a portion of this parcel for residential uses. The existing church facilities to remain have been deducted when considering the net acreage for the site and parking the existing parking lots serving the church facilities are shown as remaining in the calculation in the table below.

SITE FEATURES

- Four 1 and 2-story buildings associated with the Church use
- Two paved parking lots
- Two unimproved portions on the northwest and south parts of the parcel

PARCEL SIZE CALCULATION

The net acreage shown for Parcel 2582411000 reflects the following deductions from the gross acreage:

- 3.04 acres contain existing development related to a church facility that is to remain. This development includes four buildings and two paved surface parking lots.

APN(S) (OWNERSHIP)	2582411000 (SEACOAST COMMUNITY CHURCH)	PARCEL SIZE (AC) (GROSS/NET)	4.45/1.41

MANCHESTER AVENUE WEST SITES

SITE NUMBER AD11

SITE DESCRIPTION

Parcel 2612003700 contains one single-story single-family residence. There is existing mature vegetation on the parcel and a dirt road.

Parcel 2612003800 is a vacant parcel that appears to be graded or partially disturbed. There is little existing vegetation on the parcel and a portion of a dirt road.

Parcel 2612003900 contains one single-story single-family residence. The parcel is accessed off of a dirt road. There is some existing mature vegetation on the parcel.

All three parcels are relatively flat and bordered to the east by an I-5 freeway off-ramp, to the south by a one-story commercial development, and to the north and west by existing residential townhouses. Access to the site is off a paved private road from the south that connects to Manchester Avenue.

The owners have expressed interest in developing these parcels for residential uses.

SITE FEATURES

- Two older 1-story single-family residences
- Vacant, open space
- Minimal existing mature vegetation

PARCEL SIZE CALCULATION

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas. Therefore, the parcel's net acreage equals the full gross acreage for this parcel.

MEYER PROPOSAL

SITE NUMBER AD31

SITE DESCRIPTION

Parcels 2561711300 and 2561711400 are developed parcels, each containing one older single-story residence. The properties are adjacent to the I-5 Freeway to the west, agricultural uses to the north and south, and a single-family residential subdivision to the east.

Parcel 2561711500 is a developed parcel containing an outdoor storage area associated with agricultural uses.

Parcels 2561712000, 2561712100, 2561712400 are developed parcels containing a flower growing business and associated greenhouse and sales temporary structures

A representative of the property owners has proposed development of these parcels.

SITE FEATURES

- Two single-family residences
- Paved and unpaved parking areas
- Agricultural facilities
- Temporary greenhouse structures

APN(S) (OWNERSHIP)	2561711300 (BEAZ ELEAZA & MANCILLA SANTA A B GARCIA-GOMEZ FIDEL) 2561711400 (RODRIGUEZ JUANA) 2561711500 (REED KIRK C TRUST) 2561712100, 2561712400, 2561712000 (MALDONADO DAVID & OLIVIA FAMILY TRUST)	PARCEL SIZE (AC) (GROSS/NET)	2561711300: 0.75/0.75 2561711400: 0.63/0.63 2561711500: 1.41/1.41 2561712000: 0.60/0.60 2561712100: 0.38/0.38 2561712400: 2.85/2.65 Total: 6.62/6.52
SITE STATUS	Non-Vacant	MAXIMUM DENSITY	30 DU/AC

NEIGHBORHOOD	Leucadia	UNIT CAPACITY (min.)	163
GENERAL PLAN LAND USE	Residential 3 (1-3 DU/AC) & Residential 5 (1-5 DU/AC)	CONSTRAINTS	<ul style="list-style-type: none"> • Existing agricultural uses on site
ZONING	R-3 & R-5		

PARCEL SIZE CALCULATION

The net acreage shown for parcel 2561712400 reflects the following deductions from the gross acreage:

- 0.20 acres contain slopes between 25 - 40% (developable at 50% per the City of Encinitas Municipal Code)

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas on the remaining five parcels. Therefore, the net acreage on those parcels equals the full gross acreage.

C.2 Moderate and Above Moderate Candidate Sites Inventory

Calculation of Unit Capacity.

The City of Encinitas is a generally “built out” community, with minimal available land for residential development. The city understands the ability to accommodate future RHNA need is challenged by this lack of available land for residential development. Therefore, future growth needs must be accommodated through the recycling of current uses or the higher utilization of existing residential sites.

Encinitas has grown from its agricultural roots to a more modern, suburban community. As development continues to change throughout the region and demand outpaces supply of housing, Encinitas has begun to look at the reuse, recycling and intensification of land to accommodate anticipated future growth need. Once a traditional commercial corridor, Pacific Coast Highway has begun to evolve as a unique coastal urban infill opportunity area. The city’s adoption of the Downtown Encinitas Specific Plan and the North Highway 101 Corridor Specific Plan provide the policy guidance for the transition to residential and mixed use development along this Corridor.

For properties in Mixed Use zones, unit capacity has been calculated with an assumed mid-range density, based on the assumption that a portion of the site may permit non-residential development. Therefore, a midrange density of 15 du/ac has been assumed for calculation purposes. While site development potential for residential can be much higher, and most projects have used state density bonuses to exceed planned density, the city assumes a mid-range calculation as a conservative estimate of development yield.

Process of Site Evaluation

The City conducted a review of sites that have recently converted to residential to accommodate Moderate and Above Moderate Income Households. Within the Downtown, Highway 101 and adjacent areas, there are constructed units or permits issued for 63 units in the Downtown and North Highway 101 areas. The 17 separate applications are for the demolition of and/or construction of residential units in previous commercial properties. Through the adoption of the Specific Plans in these area, the intent is to expand opportunities for residential and commercial activity in a more urban setting.

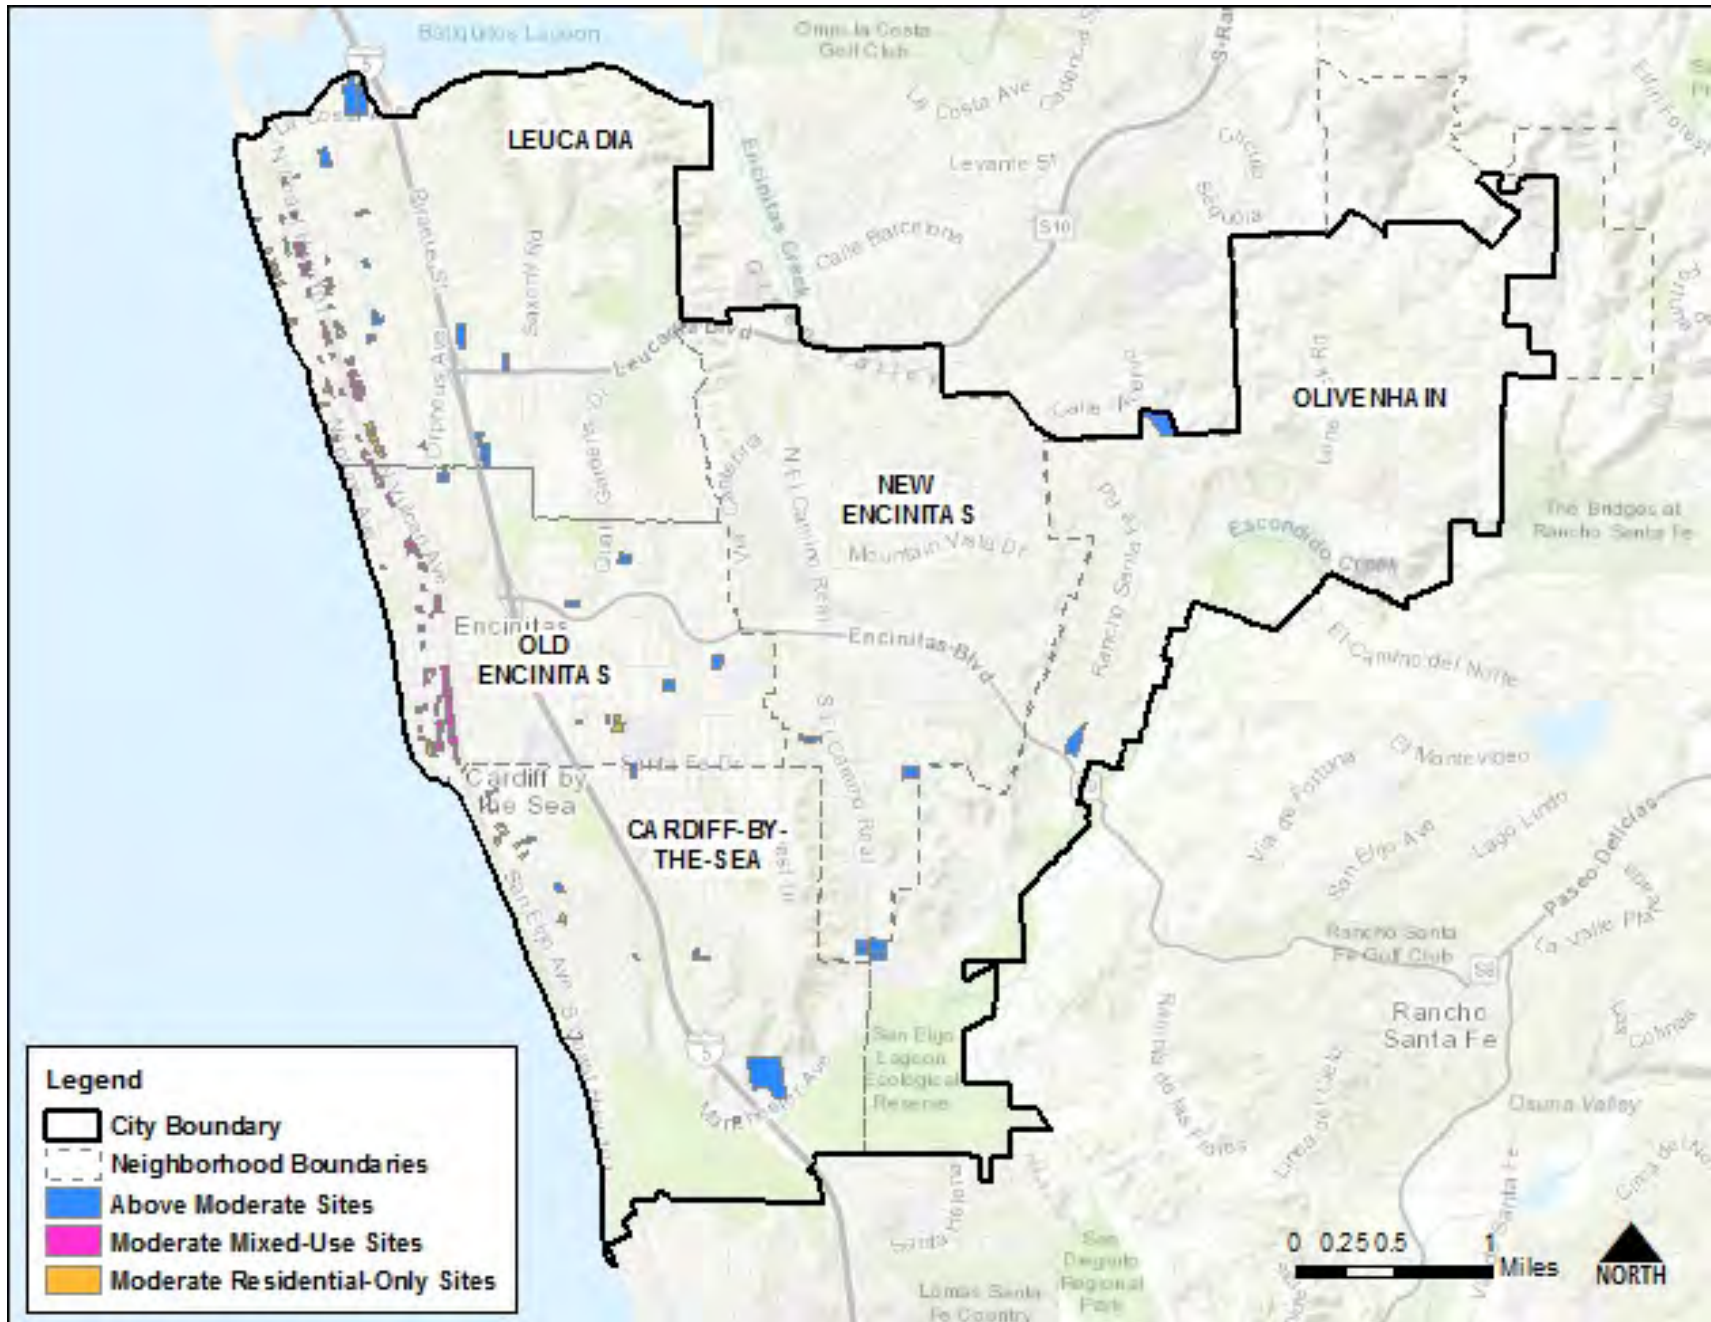

The following factors contribute to the evaluation of appropriate sites for moderate market-rate units:

1. **Access to Coast Highway** – sites with direct access to Coast Highway or directly adjacent it was deemed the ideal location for infill development
2. **Sites exhibiting adjacent changes or significant investment** – these including sites adjacent to major transportation facilities, new developments, mixed use development or major roadway improvements or planned improvements.
3. **Sites exhibiting substantial underutilization** – these sites are long term commercial retail, industrial or antiquated buildings that are deemed highly underutilized. These area typically smaller sites. These sites include sites zoned R11 and R25. The R11 and R25 sites are prime candidates of second units and subdivisions as they are substantially underutilized
4. **Accessibility to Water, Sewer and Utilities** – Adjacent infrastructure should be available and/or already served on the site.
5. **Sites exhibiting lot consolidation potential** – site that are perceived with potential to consolidate with adjacent parcels.

The recycling or reuse of existing developed sites has been a very successful means to accommodate growth in areas previously thought to be unavailable for growth. Table C-2 shows the listing of sites that have transitioned from commercial to residential or mixed use during the planning period.

Table C-5: Infill Development Examples in RHNA Planning Period			
Address	Acreage	Units	Comments
960 COAST HIGHWAY 101	0.18 ac	4	Condo units over retail
687 COAST HIGHWAY 101	1.39 ac	47	Large scale mixed use development
674 COAST HIGHWAY 101	0.09 ac	1	Small lot infill residential over commercial
686 COAST HIGHWAY 101	0.18 ac	1	Small lot infill residential over commercial
402 SECOND STREET	0.11 ac	2	Consolidation of three small lots for infill residential
207 C STREET	0.43 ac	1	Change from commercial to residential over retail – Rhino Arts
97 COAST HIGHWAY 101	0.18 ac	4	Four building mixed use development or commercial and residential
1202 COAST HIGHWAY 101	0.25 ac	3	Consolidation of four parcels into mixed use live/work units.
Total	2.84 ac	63 units	
Source: City of Encinitas Planning Department 2018			

MAP OF MODERATE AND ABOVE MODERATE SITES

CALCULATION OF UNIT CAPACITY

The capacity of these sites was initially determined by multiplying the parcel size by the minimum or midrange density for that zoning designation.

In mixed-use areas (Downtown and North 101 Specific Plan Areas), only sites large enough to accommodate at least four dwelling units were included to identify those sites most likely to be redeveloped. The site capacity was then further reduced based on the likelihood of redevelopment, as described in Appendix B. In particular, only 50 percent of the capacity of the sites in the DCM-2, D-VSC and D-OM Zones of the Downtown Encinitas Specific Plan, as well as the N-CM1, N-CM2, N-CM3, N-CRM1, and N-CRM2 Zones of the North 101 Corridor Specific Plan, has been counted to recognize constraints posed by existing uses. Because redevelopment is most likely in the DCM-1 Zone, 75 percent of the capacity of the DCM- 1 Zone has been counted. These deductions have resulted in a very conservative estimate of the development potential of the mixed use area.

SELECTION OF SITES

The sites contained in this inventory of moderate and above-moderate income sites were previously presented to HCD as part of the Housing Element placed on the ballot as Measure T. This Appendix C contains a selection of those sites that are most likely to be developed. Sites have been removed that have already been developed, and those that could accommodate fewer than four units, in mixed use zones, or only one unit, in residential zones. The City has relied on the detailed analysis contained in the Measure T Element regarding the development potential of these sites.

WATER AND SEWER AVAILABILITY

As discussed in Appendix B, each site has been evaluated to ensure there is adequate access to water and sewer connections. Each site is situated adjacent to a public street that has the appropriate water and sewer mains and other infrastructure to service the candidate site.

Subject: CANNON PROPERTY : PIRAEUS / PLATO HOUSING ELEMENT SITE ANALYSIS
Attachments: ENCINITAS HOUSING ELEMENT SITE ANALYSIS.pdf

Diane:

This letter is to advise you that the Cannon Family desires to have their property referenced above considered in the Encinitas Housing Element Site Analysis for upzoning to 30 DU per the ongoing discussions with the City Planning Department.

This site is shown in the Leucadia -Vacant portion of the Site Analysis planning and is also known as APN 254-144-01 comprising approximately 6.93 acres.

Thank you for your time last week explaining these efforts / directions by the City of Encinitas.

We shall stay in touch and continue to follow the planning.

Best regards,

Bo Havlik

RE: Encinitas Blvd & Quail Gardens 4,92 AC vacant land, for Housing Element Review

Dear Diane,

We wanted to re-express our interest in moving forward with a multi-family residential development immediately upon a successful rezone from Office Professional Zone to a Residential Zone of R25-R30. Our interest is contingent upon the City of Encinitas finalizing development standards that adequately support this level of density. Currently, we do not believe that the current zoning limitations of two-stories and 30 foot height maximum will achieve this.

We would like to retain our right to develop under the current Office Professional Zone, as this will be the direction we will pursue In the event that acceptable development standards cannot be approved for the R25-R30 zone.

We believe this property should be moved to the "Vacant Land" category, as the current single family dwelling is uninhabitable and has been effectively boarded up and vacant for years. If it helps your cause, we will be willing to demolish the dwelling.

Please also be advised that we will plan on processing plans to develop the property soon after a successful rezone to Residential.

Please feel free to call me if you would like to set up a meeting to discuss this further or need further clarification regarding our intentions.

Best regards,

George Krikorian

Re: Housing Element Update 2017 - APN's (259-231-28, 30, 31 & 32)

Dear Mayor and Council:

We are the owners of approximately 6.59 acres of land with the potential for 198 affordable senior citizen apartments built if the property is zoned consistent with the City's 2016 Housing Element Update. This property was analyzed by Staff based on extensive criteria as having the qualities necessary for it to be placed on the Environmentally Superior Map that was approved by the City Council last year.

These properties are contiguous, have all utilities to site, have gentle topography allowing maximum development, are mostly vacant (currently with only three homes over forty years old on 6.63 acres), are adjacent to commercial property, within a short walk to shopping, restaurants, mass transit and a pharmacy. Equally important is that these properties have access for ingress and egress to both Encinitas Blvd and Rancho Santa Fe Road thus minimizing traffic impacts on either of the Major Regional Collector Roads.

This letter is intended to clarify the record provided by City Staff and its consultants at the recent City Council Housing Element Subcommittee hearings. Our properties have the street addresses of 2220, 2228, and 2230 Encinitas Blvd. These properties should be classified as either "Almost vacant" or at the very least "Underutilized".

The County's tax assessor has determined that the land value comprises about 75% of the total property value clearly demonstrating that the property is mostly vacant. The Tax Assessor has determined that other properties identified in the Kimley Horn reports as "Almost vacant" have land value percentages as low as 19.76% and some of the properties identified as "Underutilized" have land value percentages of 77% and 85%. Clearly, the properties referenced herein should be included in the "Almost vacant" category.

The report prepared by Goldfarb Lipman, a consultant to the City, dated September 21, 2017 on page 4 that the City would have an advantage if it could rezone properties to meet "Fifty percent of the City's lower income RHNA" or 643 units. The document went on the state "Even with the most generous interpretation of site capacity ..." vacant sites designated for lower income housing can accommodate only 525 units. It will therefore be

presumed that the existing uses on these sites impede additional residential development. To overcome this presumption, HCD will likely require evidence such as letter from owners showing an intent to redevelop the site..." This letter is just such a letter and **More Importantly**, the inclusion of these properties (excluding the one already included in the City's calculations) an additional 148 units can be constructed creating 673 housing units on "Vacant" and "Almost Vacant" sites and with letters from property owners showing intent, this letter. As a result, with just this one correction to the City's analysis the City will exceed the 50% threshold of 643 units by 5%.

To confirm, per the above and as we have represented to City Staff many times in the past, we have an agreement to develop our properties together and are focusing on the construction of an apartment community for Senior Citizens. Providing our Senior Citizens a classy place to retire with dignity, amenities and services is good for the Encinitas Community in many ways, including: a) Reduces the demand on City Services; b) Provides affordable housing to our longest residents; c) Allows our Senior Citizens and Grandparents to remain in their community with their loved ones and support network as they need us most; d) Provides more local affordable housing when the older homes vacated become available to new families, and e) Satisfies the laws requiring the provision of housing built at thirty homes per acre.

There is another issue to clear up. The Kimley Horn analysis of various sites for development presented to the Subcommittee on October 16th on page 38, attached, states that our sites have "Steep Topography" constraints. This is not accurate. In fact, topography was analyzed by the City in the adopted 2016 HEU EIR Vialble Housing Site ALT-4 stating "Some 10-25% slopes in sections of the property with 20% to 40% in others", attached. In fact, only about 10% of the property exceeds 25% in slope. The EIR also determined that slope was not factor that would eliminate sites from consideration even if it was extensive, which again it is not. Please correct this erroneous representation.

Most importantly, the EIR included our property on the Environmentally Superior Alternative because "it focuses the change in land use to only one of the "four corners" of Olivenhain and supports the viability of the adjacent new mixed use site, O-3", which are the commercial properties between our property and Encinitas Blvd.

Please accept this letter as confirmation that we, the owners of this property, will redevelop the property immediately upon approval of the zoning necessary for such new community and that such project will have a minimal impact on views as determined by the Certified Environmental Impact Report prepared and approved by the City Council in 2016. Based upon this letter, the City and HCD must agree that these sites: a) are "Almost Vacant"; b) Have minimal slope impacts resulting in the property having a excellent development potential; and c) Have a realistic and demonstrated potential for redevelopment during the planning period for this Housing Element Update. Lastly, these

City of Encinitas
Page 3 of 3

properties remain the "Least Environmentally Impactful" alternative for new housing in the City and allow for a balance of housing throughout the City's five Communities.

Sincerely,

David R. Gaffney

RE

IMPACT OF STATE LEGISLATION ON ENCINITAS HOUSING ELEMENT

In this year's session of the California Legislature, a package of fifteen bills related to housing were passed and sent to Governor Jerry Brown for signature. The Governor has stated publicly that he will sign all fifteen bills. Two of the bills (AB 1397 and AB 879) directly affect the contents of local housing elements. A third bill (SB 166) may affect how many 'surplus' sites the City of Encinitas wishes to include in its Housing Element.

The bills will become effective January 1, 2018. The housing element requirements will then apply to Encinitas because the City's Housing Element has still not been adopted; other San Diego County cities must comply when they update their elements in 2020. Given the need for HCD review and the changes needed in the City's Element even under current law, the City cannot realistically adopt a Housing Element and place it on the ballot before January 1.

The major substantive changes will:

- Make it more difficult to designate non-vacant sites as housing sites; and
- Require more justification for the number of units shown as being accommodated on each site.

Because the majority of the sites shown for upzoning in the Measure T Housing Element were non-vacant sites, the City will likely need to designate additional vacant

sites for upzoning. Some of the non-vacant sites previously proposed for upzoning may also not be able to meet the new requirements.

This memo divides the new housing element requirements into: (1) substantive requirements related to designating adequate sites, and (2) additional required analysis. A copy of the bills showing the amendments is attached.

A. New Adequate Sites Requirements.

Background. Each city in California is required to identify enough suitable housing sites to meet its fair share of the region’s housing need, which is quantified as the RHNA. (Gov’t Code §65583(c).¹) The RHNA is separated into an allocation for very low and low income housing, moderate income housing, and above moderate-income housing. The City’s RHNA for the 2013-2021 Housing Element is as follows:

Income Category	RHNA (Housing Units)
Very Low and Low	1,286*
Moderate	413
Above Moderate	907

*Includes 253-unit carryover from 1998-2005 when City did not adopt a Housing Element.

The City’s Housing Element must designate specific sites that can meet its RHNA in each of the three income categories: very low and low; moderate; and above moderate. (§ 65583.2.) In Encinitas, sites suitable for very low or low income housing must be zoned to allow at least 30 units per acre, unless the City can demonstrate that sites zoned at lower density are suitable or that affordable units have actually been constructed. (§§65583.2(c)(3)(A), (c)(3)(B)(iv).).

Measure T Sites. The City’s existing zoning can accommodate its share of moderate-income and above moderate-income housing. Measure T proposed to provide sites suitable for lower income housing as follows:

Lower Income RHNA	1,286 Units
New Construction	47*
Accessory Dwelling Units (ADUs)	146**
Rezoned Sites (30 units/acre)	1,987
Total Units Accommodated	2,180 Units
Excess Units (“Buffer”)	894 Units

*Lower income units constructed or approved through 12/31/12.

**Based on 271 new ADUs and 25 legally converted ADUs in 8-year planning period, 296 total; half assumed to be affordable to lower income households.

Almost all of the 200+ sites designated by Measure T to be rezoned to be suitable for lower income housing were non-vacant sites. In field work, Kimley-Horn identified

¹ All future references are to the Government Code unless otherwise stated.

Previously the City was required to justify the use of non-vacant sites by considering the extent to which existing uses might be an impediment to residential development, development trends, market conditions, and regulatory incentives. The City must now additionally analyze:

- The City's past experience with converting existing uses to higher densities;
- Current market demand for the existing use; and
- Any leases or other contracts that would perpetuate the existing use or prevent redevelopment for additional residential development. (Proposed §65583.2(g)(1).)

This will require substantial additional analysis of *all* non-vacant sites, *at all income levels*.

Additionally, if the City is relying on non-vacant sites to accommodate 50 percent or more of its housing need for lower income households, an "*existing use shall be presumed to impede additional residential development*, absent findings based on substantial evidence that the use is likely to be discontinued during the planning period." (Proposed § 65583.2(g)(2).)

Fifty percent of the City's lower income RHNA equals 643 units. Even with the most generous interpretation of site capacity and "vacant," vacant sites designated for lower income housing can accommodate only 525 units. It will therefore be presumed that the existing uses on these sites impede additional residential development. To overcome this presumption, HCD will likely require evidence such as letters from owners showing an intent to redevelop the site; abandonment of use and a site for sale; etc.

It is our understanding that owners of many of the non-vacant sites are not particularly interested in residential development. If this is correct, it would be prudent for the City to ensure that vacant sites can accommodate at least half the lower income housing need. Even without this additional presumption, it may be difficult for the City to show that some non-vacant sites designated in Measure T are likely to be redeveloped.

Additional Analysis of Site Capacity. For each site shown as suitable for housing the City's Housing Element must show the 'capacity' of the site: how many units can actually be built on the site and at what income level. The units shown within each income category are totaled to demonstrate that the sites designated can accommodate the City's RHNA.

The determination of site capacity is a two-step process:

- If there is a *minimum* density for the site, HCD must accept it; or, the City can demonstrate the capacity of the site (§ 65583.2(c)(1)).

525
+ 148-OTC

673

- Then, the City must adjust (i.e., reduce) the number of units based on land use controls and requirements for site improvements. (§ 65583.2(c)(2).) AB 1397 also requires 'adjustment' for:
 - 'Realistic capacity;'
 - Densities of approved projects at a similar affordability level; and
 - Availability of utilities. (Proposed § 65583.2(c)(2).)

Kimley-Horn has proposed showing the capacity of each site based on 30 units per acre, which is the *maximum* density permitted, not the minimum density. The Measure T Housing Element showed, for purpose of site capacity, 20 units per acre. It also contained statements that a height limit of two stories could not accommodate 30 units per acre.

To maximize the capacity of each site, and minimize the number of sites needed, the City will need to convince HCD that each site can actually accommodate 30 units per acre within two stories. If HCD does not agree that this is supportable, despite zoning at 30 units per acre, it will demand that the City reduce the capacity of each site as shown in the Housing Element, and upzone more sites for lower income housing. Examples of densities of 30 units per acre accomplished within two stories in other communities may be most convincing.

Conclusion: Adequate Sites Requirements. The non-vacant sites included in Measure T should be reviewed to determine if they will be considered feasible for redevelopment given the additional analysis required. To the extent possible, the City should seek vacant sites to upzone to be suitable for lower income housing so that these comprise more than 50 percent of the sites designated for lower income housing. It should also give preference to non-vacant sites whose owners are willing to represent to HCD that they desire to develop housing. The City will also need substantial evidence to convince HCD that 30 units per acre can be accomplished in two stories.

B. Additional Required Analysis.

Requirements for additional analysis will increase the length and cost of the Housing Element and may result in demands for additional actions by the City, but will have no direct impact on sites designated for housing. These additional analyses include:

- Constraints posed by "locally adopted ordinances that directly impact the cost and supply of residences" (Proposed § 65583(a)(5));
- Nongovernmental constraints, including requests to develop housing below the densities shown in the housing element; length of time between project approval and submittal of applications for building permits; and

RE: HOUSING ELEMENT UPDATE MAP ID 6 (SAGE CANYON DRIVE)

Dear Diane:

The purpose of this letter is to inform you that on August 20, 2018, Sage Canyon Encinitas, LLC, a California Limited Liability Company, acquired the 5.23 acres of vacant land located on the southeast corner of Sage Canyon Drive and El Camino Real (APN 262-061-85-00) from Pacific Canyon LLC as evidenced by a grant deed recorded with the County of San Diego.

As stated in my letter to you dated May 24, 2018 (attached hereto), if the City chooses to change the zoning of the subject parcel to allow for 25-30 residential units per acre, Sage Canyon Encinitas, LLC is interested in pursuing a development consistent with the new zoning in lieu of moving forward with the 10-lot subdivision the subject property is currently entitled for.

Sincerely,

Keith Harrison
Managing Member

RE: HOUSING ELEMENT UPDATE MAP ID 6 (SAGE CANYON DRIVE)

Dear Diane:

As we previously discussed, I have entered into a binding contract to acquire the 5.23 acres of vacant land located on the southeast corner of Sage Canyon Drive and El Camino Real (APN 262-061-85-00) from the current owner. I have released all my contractual contingencies and my earnest money deposit is non-fundable subject to a couple relatively minor updates the seller is required to provide prior to closing, which is scheduled to occur soon.

The property is currently entitled with a 10-lot tentative map, but a grading plan has not been submitted to the City. The environmental constraints of this site have already been delineated, usable acreage determined, and necessary utilities are easily accessible. If the City chooses to change the zoning of the subject parcel to allow for 25-30 residential units per acre, and adopts development standards that make it feasible, I am interested in pursuing a development consistent with the new zoning in lieu of moving forward with the 10-lot subdivision.

Please let me know if you would like any additional information.

Sincerely,

Keith Harrison

Quail Meadows Properties, LLC

San Diego, CA 92101

May 25, 2018

Brenda Wisneski
City of Encinitas
Development Services Department
505 South Vulcan Avenue
Encinitas, CA 92024

Dear Ms. Wisneski,

On behalf of Quail Meadows Properties, LLC, and as an authorized signatory, I would like to express our continued strong interest as a candidate site in the Housing Element update. If approved, it would be our intention to construct high-density multi-family housing in the allowable density range of 25 to 30 dwelling units per acre, provided the development standards adopted are conducive with this type of construction.

We still have concerns about whether the development standards that are currently proposed will allow for cost effective construction at those densities, but will continue working with the City to resolve these concerns.

If you have any questions, please contact me at 619-234-4050.

Sincerely,

Nick Lee
Vice President
Quail Meadows LLC

Saints Constantine and Helen Greek Orthodox Church

January 11, 2018

Ms. Diane Langager
Principal Planner, Housing Element
505 South Vulcan Avenue
Encinitas, CA 92024

Dear Ms. Langager;

We are so pleased to be a part of Affordable Housing Element in Encinitas. Saints Constantine and Helen Greek Orthodox Church has been committed to affordable housing for seniors for more than three decades. As you are aware we have 30 apartment units on our property, all of which fall under affordable housing guidelines. (I believe our rents are the lowest in the city). We consider these apartments and any future apartments to be a Ministry of our Church and are committed to serving the senior population of the community.

If the Affordable Housing Element is passed, we plan to build 40 to 50 senior housing units, all of which will be affordable housing. The apartments will be built on a portion of the undeveloped land on the church property. They will be built across the back portion of the land adjacent to the existing apartments and will be architecturally similar to the existing buildings. We are planning to start the building process as soon as feasible once the housing element passes.

Thank you for the opportunity to continue to serve the seniors in our community through offering affordable housing.

Sincerely,

Fr. Michael Sitaras
Pastor

Anne Panagakos
Parish Council President

May 3, 2018

Ms. Diane Langager
505 South Vulcan Avenue
Encinitas, CA

Dear Ms. Langager:

We at Saint Constantine and Helen Greek Orthodox Church are pleased to be considered as part of the City of Encinitas Affordable Housing Program. We have had affordable senior housing on the church property for over thirty years. Our 30 existing units and the units that we propose to build are and will be available for tenancy to the general public, there is not and will not be a religious or church membership requirement for tenancy.

Thank you for your kind attention.

Sincerely,

Anne Panagakos
President

Subject: Cabo Grill site - 1950 N Coast Hwy 101. Encinitas, CA 92024

Larry,

Today, I did a site visit to the former Cabo Grill site located at 1950 N Coast Hwy 101. Encinitas, CA 92024. As you know, the property is vacant and has not been occupied for nearly 10 years. Unfortunately, the condition of the building on the property is very poor and is in considerable disrepair. It cannot be occupied absent a complete renovation down to the framing. Further, the existing structure does not meet building code, life/safety, or ADA requirements.

While we have taken steps to protect the building, it has been and continues to be broken into by vagrants. The current condition of the property is shown in the attached photos. There are large openings in the roof, broken windows, extensive holes in the drywall, missing doors, broken/uneven floors, and missing light and plumbing fixtures.

I recommend that we take steps to demolish the building.

Please let me know if you have any questions.

Thanks,
Bryan

Subject: *Fox Point Farms – Letter of Intent*

Dear Ms. Langager:

We are providing this letter as formal confirmation regarding our intent to develop the property at 1150 Quail Gardens Drive (referred to as the “Echter Property”). We originally expressed our interest at the November 8, 2017 City Council meeting, at which time we introduced the “agrihood” concept plan, which respects the current use of the site while simultaneously providing an innovative, high-density development in compliance with State requirements. We have reinforced our interest at subsequent City Council meetings (December 2017 and January 2018), and have been coordinating with City staff to provide additional requested specifics regarding our proposal.

We have reviewed the April 4, 2018 staff report and appreciate the ranking of the Echter Property as a “Strong Candidate” in the Prioritization Table for Candidate Sites. As you know based on our meetings with you and your staff, our team is committed to making this vision a reality, and we are eager to submit a project application as soon as possible. We have a development team ready and waiting to move forward.

Thank you for working with us as we continue to refine the vision for Fox Point Farms. In an era where traditional high-density housing tends to lack open space, amenities, and overall livability, we believe our proposal serves as an innovative example that will become a gem for the City of Encinitas and a model for other cities to follow.

Sincerely,

Brian P. Grover

RE: *Sunshine Gardens Site at Encinitas Blvd & Quail Gardens, approximately 3
AC vacant land for Housing Element Review*

Dear Diane:

We wanted to express once again our interest and commitment in moving forward with a multi-family residential development immediately upon a successful rezone from Office Professional Zone to a Residential Zone of R25-R30.

Our commitment is contingent upon the City of Encinitas finalizing development standards that adequately support this level of density and we are concerned and do not believe that the current zoning limitations of two-stories and 30-foot height maximum will achieve the required results.

We want to insure the City of Encinitas that development can begin as soon as the zoning is approved by the Coastal Commission and plans are processed and approved. We own the Sunshine Gardens business and have short term leases with the other tenants that will all expire prior to the rezoning and entitlement process.

We would also like to stress that the structures on the property are temporary and can be demolished very easily.

Please feel free to call if you would like to set up a meeting to discuss this further or need further clarification regarding our intentions. Thank you.

Best regards,

RE: 1967 N Vulcan Ave.

We would like to submit our land, [1967 N Vulcan Ave, Encinitas CA 92024](#), for consideration, from the Housing Element Task Force, to be included in the proposed increased maximum zoning density of R-30.

The subject property is 2 Acres and is currently under used, flower field, shop, old residence, etc...

We are currently in the process of a tentative map process, but prefer to wait for the zoning change and then commence developing and building under the new proposed zoning plan.

We have no intention of keeping the flower field and/or any of the old structures on the land, they will be demolished to make way of development and building on the entire 2 acre site.

We want the City of Encinitas to be sure of our intentions of developing, demolishing, and building under the new proposed zoning, once entitlements are secured.

Please call us if you need anything else.

Sincerely,
DocuSigned by:

Re: Letter of Intent to Up-zone and Build, Assessor Parcel Numbers 261-200-37, 38 and 39

Dear Ms. Langager:

The two property owners, Peter McConnell and the Marandino Family Trust, of the Manchester Avenue West Sites of 1.67-acre parcels (APNs 261-200-37, 38 and 39) are very interested in up-zoning from R11 to R25-R30 designation. This up-zone would allow for more efficient use of these properties that would better serve the community.

Currently, the property has two single family residences and a single-story structure that upon agreement with the City of Encinitas to rezone and develop the land will be demolished. To the property owners, knowledge there are no known property constraints (ex. environmental, utility, flood zone, steep slopes, etc.). This is a non-binding letter of intent, as both property owners would have to find agreeable price and terms.

We are excited about being included in the Housing Element Updater and the opportunity to explore building this property to its potential. If you have further questions please contact our representative, Faith Picking at (619) 704-0180 or faith@bartellassociates.com.

Sincerely,

RE: HOUSING ELEMENT UPDATE MAP ID 18 (364 & 371 2nd Street)

Dear Diane:

I am a resident of Encinitas and the owner of the real property located at 364 and 371 2nd Street in Encinitas. It has long been my intention to redevelop the subject property with a mixture of commercial and residential uses consistent with the underlying D-VCM zone. This desire is born out of the gross underutilization of the property by uses that no longer meet the intention of the Downtown Encinitas Specific Plan ("DESP".) In preparation for redevelopment, I have limited my tenant lease terms to the amount of time normally required to procure the City's discretionary approval. As of now, almost all my tenants are month-to-month.

The DESP provides a 3-story, 33-foot(flat)/37-foot(pitched) building height limit for my parcels. However, these limitations were reduced to 2-stories and 30-feet, respectively, with the passage of Proposition A. The current development standards severely limit the feasibility of redeveloping my parcels to accommodate uses consistent with those articulated in the DESP for the D-VCM zone.

Should the zoning for my parcels change to allow 25-30 unit residential density on my parcels, and the development standards restored to what the DESP provides, I would proceed in the near term with plans to redevelop my property accordingly.

Sincerely,

Keith Harrison

Subject: New site possibility for Housing Element Update

Please accept this email as proposing the following adjacent parcels (see below), totaling approximately 6.6 acres, to be considered as a possible replacement for the L-7 site. Our company is working with the owners of these parcels to file a Density Bonus Tentative Map application, however, they have given permission to express their interest in either a swap for L-7 or a rezoning of the subject parcels to 30 units to the acre. We are open to discussing this possibility in short order, as we know time is short for the city to complete its review process to get a draft Housing Element Update (HEU) approved by HCD and on the November ballot.

SUBJECT PROPERTY:

Approximately 6.62 gross acres as follows:
APN: 256-171-13 (Approx. 32,819 s.f. – Zoned R5)
APN: 256-171-14 (Approx. 27,714 s.f. – Zoned R5)
APN: 256-171-15 (Approx. 61,477 s.f. – Zoned R5)
APN: 256-171-20 (Approx. 25,932 s.f. – Zoned R3)
APN: 256-171-21 (Approx. 16,514 s.f. – Zoned R3)
APN: 256-171-24 (Approx. 123,967 s.f. – Zoned R3)

Please find attached the plat map of these parcels, along with an aerial map from the City's E-Zone website. In planning this site for a TM application, we have identified few, if any, known impediments to the development of this site during the current HEU planning period at a density up to 30 dwelling units to the acre, which will make it a good candidate for inclusion in the current HEU.

I am available to meet with representatives of the City to discuss this site in further detail and its viability for inclusion in the HEU.

Sincerely,

-David Meyer

Importance: High

Diane,

In further discussion with the owners of the two Clarke Avenue parcels that some of their neighbors have made unfounded accusation regarding their understanding and intent to include their property in the HEU upzoning and that I am their authorized representative in this matter, they have agreed to clearly and definitively put any concerns on this matter to rest.

To that, attached please find an expression of interest letter signed by the subject parties. Please note that this document is both in English and Spanish, that was also verbally communicated both in English and Spanish by a native Spanish speaker to all parties. Additionally, one of the property owner's children, who is a native English and Spanish speaker attended this meeting, also communicated this document to all executing parties.

We sincerely hope that this document puts this unfortunate and groundless incident to rest with the City and HCD.

David Meyer
DCM Properties, Inc.

This email and any files attached are intended solely for the use of the individual or entity to which they are addressed. If you have received this email in error, please notify the sender immediately. This email and the attachments have been electronically scanned for email content security threats, including but not limited to viruses.

Expression of Interest

As the owners of the subject property, this document is to reconfirm our interest in including our property in the Encinitas Housing Element Update that would place an Overlay (R-30 OL) Zoning Designation on our property, providing the option to develop our property at 25 to 30 housing units per acre. Our interest is based on the City adopting development standards that would not prevent developing at this density or placing other requirements on development making the use of this density economically unattractive.

Our authorized representative in this matter is Mr. David Meyer of DCM Properties, Inc., who previously submitted information to the City of our interest in having our property included in this process. Only the relevant portions of that agreement were submitted to the City to show our interest in the overlay zoning, as the rest of this document deals with a private business transaction and is not relevant to this matter.

Thank you.

Expresión de interés

Como propietarios de la propiedad en cuestión, este documento confirmará nuestro interés en incluir nuestra propiedad en la Actualización de Elemento de Vivienda de Encinitas que colocaría una Designación de Zonificación Overlay (R-30 OL) en nuestra propiedad, brindando la opción de desarrollar nuestra propiedad en 25 a 30 unidades de vivienda por acre. Nuestro interés se basa en que la Ciudad adopte estándares de desarrollo que no impidan el desarrollo a esta densidad u otros requisitos en el desarrollo, haciendo que el uso de esta densidad sea económicamente poco atractivo.

Nuestro representante autorizado en este asunto es el Sr. David Meyer de DCM Properties, Inc., quien anteriormente presentó información a la Ciudad de nuestro interés en que se incluya nuestra propiedad en este proceso. Solo las partes relevantes de ese acuerdo se enviaron a la Ciudad para mostrar nuestro interés en la zonificación de superposición, ya que el resto de este documento trata sobre una transacción comercial privada y no es relevante en este asunto.

Gracias.

Subject: Re: Encinitas Housing Plan - Invalid Letter of Intent
Importance: High

Dear Ms. Huntley,

Please find in the below email to the City, dated June 20, 2018, our response to the spurious accusations made about DCM Properties, Inc. (DCM) and myself, with regards to our representation of the property owners of Site AD31 of the Encinitas Housing Element Update (HEU).

First let me state for the record that these accusations are entirely without merit, libelous and slanderous to DCM and myself, and discriminatory to the subject property owners as somehow being incapable of understanding that they are offering their property for upzoning as part of the HEU as they are Hispanic and not native English speakers or that DCM or myself are somehow taking advantage of these parties. All our transactions with these parties, for absolute clarity and openness, have been in English and Spanish, orally and in writing, using a native Spanish speaker. The property owners are fully aware of the subject offer and are insulted that parties unknown to them are questioning their ability to understand what they are offering.

The fact that public agencies are now also questioning this, based on unfounded accusations and innuendo by parties opposed to the inclusion of AD31 in the HEU is equally troubling to say the least. The information provided to the City and HCD with regards to this matter stands for itself. The redacted portions of the agreement are not relevant to the offer for upzoning and due to a confidentiality provision in the agreement, we are only permitted to release the relevant portion of the agreement to satisfy proof of interest in the upzoning and our authority to represent the owners of

AD31. That portion of the agreement is clear and unambiguous: "Property Owners understand that DCM has presented a potential opportunity to trade or rezone the subject Property and hereby authorize DCM to additionally pursue such opportunity on their behalf."

Additionally, as stated in the below email we sent to the City in response to these accusations, neither DCM, myself, or a related entity has any ownership in or rights to buy the subject properties. We are simply representing the subject owners of AD31 in this matter.

The reality is that the property owners are being repeatedly contacted by several neighbors, feel belittled and harassed by them, and would like this activity to cease. The City's and now HCD's request for further proof of interest without any foundation other than unfounded accusations are troubling and disappointing to say the least. The behavior by these neighbors, who clearly are motivated by their opposition to the upzoning of this site, is shameful and the treatment of these families who have lived and worked in Encinitas for two-decades is disgraceful.

Therefore, unless HCD or the City can present credible information directly from the subject property owners differing from the provision of interest provided, no further proof of interest is necessary. Anything to the contrary would clearly be discriminatory and damaging to the interests of the property owners in this matter.

Sincerely,

David Meyer, President
DCM Properties, Inc.

Subject: Unfortunate Incident

Dear Council,

While I understand that you have a very important series of decisions to make regarding the Housing Element Update this evening and must be getting a large volume of email on this topic, I felt it important to email you on a very unfortunate incident on one of the considered sites that was just brought to my attention.

As you are aware, our firm represents the site off of Clarke Avenue, consisting of four owners. Two of the parcels immediately off Clarke Avenue are owned by families of Hispanic descent. In recent days they have been approached by several neighbors and part of their interaction has been to tell these families that because they are not native English speakers, that they somehow do not understand what they have done by offering their properties for upzoning.

This action by their neighbors has insulted them and made them feel as if they were being demeaned for being Hispanic. This is to say the least a disturbing event, and not in keeping with Encinitas' tradition of being an open and welcoming community. These two families have lived, raised families, and worked in Encinitas for over 20-years, and deserve not to be demeaned and insulted this way.

For the record, all discussions and documents have been communicated with them orally and in writing in Spanish and English. Additionally, our firm has no ownership in or rights to buy these properties from the owners. We are simply representing them in this matter.

While I understand that emotions are running high on this issue, it is simply unacceptable behavior by these citizens and my client is hopeful that going forward that they will be treated with dignity and respect, as they have done so being good neighbors and members of our community for over two decades.

They are supportive of the Council's efforts to bring the city into compliance, and that their site can provide in redevelopment, more affordable housing to those who currently can't find affordable housing in our community. Both are small local business owners and understand firsthand how difficult it is for their employees to find local housing in our community.

Thank you for your time on this unfortunate matter.

David Meyer

Subject: Encinitas Housing Plan - Invalid Letter of Intent

Dear Robin

I am one of the many citizens of Encinitas that presented during the Public Hearing portion of the June 20th Encinitas City Council meeting and public hearing on the Encinitas Housing Element Update. My presentation to the council was an expression of opposition to the City's late addition of a parcel of land to the Housing Element Update known as the "Meyer Site", also identified as AD31 on the proposed site map.

My presentation presented compelling evidence that we, the neighbors of the AD31 site property owners, have gathered that brings in to question the validity of the interest of the property owners in a rezoning of their property. The Letter of Intent (LOI) brought forth by a Developer, David Meyer (DCM Properties), represents to the city that the property owners agreed to have DCM represent their interest in an opportunity for a "land trade or rezoning" of their property.

We have evidence that strongly suggests Meyer obtained property owner signature under false pretense, that he intentionally misrepresented these property owners to the City of Encinitas.

My intent in presenting this information to the City Council late last night was to induce an independent validation of the Letter of Intent presented by David Meyer. It is apparent that the content of the document was not meant for public consumption due to the fact that it was 90% redacted when it was included in Appendix C of the Housing Plan. Based on what I heard from City Council during deliberation and based on the results of their ultimate vote, it is clear that my presentation of this evidence was not taken seriously.

I realize these claims are bold. But they are serious and warrant investigation.

It would appear that site AD31 was included in the plan as a replacement for L-7 which was added to the plan on April 7 and Removed on April 19, in response to local resident opposition. The number of taxpayers who are for the inclusion of L-7 on the plan greatly outnumber the few hundred local residents who signed the petition in opposition. It is a city owned site, yet the council chooses to ignore the masses and HCD recommendation, and left L-7 off the plan. The City voted last night to ignore HCDs recommendation to consider it a viable site, and continues to bend to the will of the developers and their own special interests.

Site AD31 was offered as an option for the city council to consider via email from David Meyer, owner of DCM Properties on May 8th.

Specifically, DCM Properties apparently received signatures from all Site 19 property owners on a Letter of Intent, found in Appendix C of the Housing Plan, And it was this LOI that was used by the city as evidence of property owner interest in upzoning their property to R30.

DCM represents to the City in that letter that the property owners have agreed to allow DCM to pursue a property trade or rezone on their behalf.

The LOI is attached. A red flag that caused me to investigate further is the fact that over 90% of the document is redacted and page 2 is missing. Also it is the ONLY redacted document in the entire Housing Plan. It was poorly redacted and I was able to extract some meaningful text, which caused

me to dig even further. Of particular interest is the portion of the sentence on page two, under "Property Trade" that says "or Rezone the subject property".

Some questions come to mind. Why would this portion need to be redacted? Why is the document redacted to begin with? And What property does DCM have in mind for a land trade? It isn't clear.

We paid a visit to our neighbors, the property owners, to see

1. If they could help us understand the LOI and
2. See if they are informed about what is going with the Housing Element Update?

What we determined in speaking with property owners is the following:

1. It is clear they don't understand why people are suddenly interested in their property. One property owner was told that they are building a large apartment complex next door (710 and 712 Clark St.) and that selling their property will help the City build more affordable apartments. That their property will be more valuable now so they can extend this complex into their land. According to City Records, Shea Homes is building 13 Market Rate homes and one affordable home on that lot. It is peculiar to me that the owners have a different understanding.
2. The property owners we spoke to don't understand the public notice sent to the property owners because it is in English. The property owners we spoke to speak Spanish.
3. They don't understand what R30 means or R5, nor have ever heard of a property known as L-7.
4. And They know nothing about an opportunity for a "land trade" nor what that even means, despite the language in the LOI.
5. One of the property owners does not recall signing anything called an Letter of Intent. In fact stated, IN SPANISH, that they would not sign anything, unless it was in SPANISH. We showed the LOI to the property owner, and then the signature page with their signature on it (the signature page is its own page). They said they remember signing that for some people asking their permission to take some measurements for a possible future road to connect Clark to Union St. (it is currently blocked off). They were NOT presented a translated version of the Meyer LOI.

Further, the email sent by David Meyer to the City suggests DCM is working with the property owners to file a density bonus application. And that they have given DCM their permission to express interest in a land swap for L-7 OR a rezoning to 30 units per acre.

The property owners we spoke to do NOT know what a Density Bonus application is, and have never heard of a property known as L-7.

The LOI makes no reference to L-7 and, apparently, the rezoning aspect of that LOI was redacted for some unknown reason.

I don't think Confidentiality was the reason, since this letter was included in the plan and shared with the general public, in violation of their trust.

So, after 25 meetings over 18 months, site AD31 makes it's debut to the housing plan in a May 17th meeting of the Planning Commission and presented to City Council, officially, on May 23rd.

The first public hearing held on June 12th, where several planning commissioners agreed with the numerous public speakers that AD31 should be removed and not presented to HCD.

We have alerted the property owners, our neighbors, that the City thinks their interests are being represented by DCM Properties. That they should know that, if this is true, their confidentiality

appears to have been violated in a very public way. We have recommended they seek legal counsel, because there is a clear perception that they are vulnerable to bad faith, predatory dealings with developers.

In light of what we have discovered from the AD31 property owners, the perception of the residents who oppose the inclusion of site AD31 in the housing plan is that the property owners signed a document under false pretense (if they signed it at all) and that their interests are intentionally being misrepresented. These, if proven, are prosecutable crimes. Further, the evidence of this behavior was presented to the City, who is choosing to do nothing about it. In my view, the mere suggestion that a developer has invoked deceitful tactics in order to intentionally misrepresent the interests of property owners for potential personal gain should be sufficient to warrant at least an independent inquiry. Not only into this site, but the property owners of every non-vacant site being proposed. In fact, it was revealed during the city council meeting, that another contested site, AD32 (formerly Frog's), is encumbered by a long term lease, rendering the site not viable for inclusion. It takes a public hearing to discover this type of information after 18 months and myriad meetings.

I will leave you to consider this information to assess validity of documents presented by DCM as valid interest from the property owners of AD31. It certainly brings into question the level of diligence done by the city to determine the validity of property owner interest of all non-vacant sites included in the plan. We will certainly be working with the property owners, our neighbors, to obtain legal counsel and further investigate the apparent attempts to deceive not only the AD31 property owners, but also the City of Encinitas, and by extension, the State of California.

I am available by phone or email to discuss further. Thank you for your time and all of your hard work to this point to help our great city in their attempts to become compliant.

Sincerely,

Sean McDaniel

Subject: May 9, 2018 City Council Agenda Item 10A

Diane,

Since my email to you on April 4th requesting that my property at 364 2nd Street and 371 2nd Street (Site AD14) be withdrawn from inclusion in the housing element update, I have heard the City Council and HEU Task Force members repeatedly voice their commitment to HEU zoning changes being in the form of an “overlay” to existing zoning whereby property owners will not lose their existing zoning rights. I therefore have no objection to site AD14’s inclusion in the HEU update.

If you are still looking for additional sites that are good candidates to accommodate multi-family housing at 25 to 30 units per acre, you may want to consider the 4.13 gross acres (2.25 net) of OP (office professional) land I own at 780 Garden View Court (APN’s 257-470-25, 09 & 10). The property consists of three lots, of which one is improved with a 18,897 tilt-up concrete building constructed in 1995 for Frog’s Gym. The remaining two lots are improved with 191 concrete asphalt parking spaces for the gym. The existing parking equates to more than ten (10) spaces per 1,000/s.f. of building area which is far in excess of what the gym really needs (approximately five (5) spaces per 1,000 s.f. which can be demonstrated with a parking study. The existing parking is also 251% more than what is required for professional office use which the gym could be converted to easily. Therefore, a significant portion of the parking lot could be developed as multi-family without any need to raise the existing building. The 2.25 acres is at an elevation approximately five (5) feet above Garden View Court which would allow a subterranean parking garage to be constructed efficiently and without significant ramping. This would further expand the developable area. In terms of impact to neighbors, the property is bordered on the north and west by native open space, professional office to the south, and two (2) residential homes to the east. The two residential homes are oriented away from the subject property (significant rear-yard setbacks between the homes and the subject) and are on pads approximately 17 f.t. above the subject parking lot. I have attached a site plan and elevations for your review. Please let me know if you would like any additional information.

Regards,

Keith Harrison
