# MacKinnon Avenue ADA Sidewalk Improvements

Maintaining safe and livable communities through well-maintained infrastructure and facilities

## ABOUT THE PROJECT

The MacKinnon Avenue ADA Sidewalk Improvement Project (CS20D) provides an accessible sidewalk on the east side of MacKinnon Avenue from Birmingham Drive to the I-5 bridge, across from Encinitas Community Park. The proposed improvements included reconstruction of approximately 1,200 feet of curb, gutter and sidewalk, and associated driveway connections to facilitate ADA access.

In September 2020, the project design, plans, specifications, and authorization to advertise for bids was approved by City Council. After two rounds of project bidding, the construction contract was awarded to Tri-Group Construction and Development, Inc. in April 2021.

The project received funding from the Community Development Block Grant (CDBG) Program. Such grants are awarded to entitlement community grantees to carry out a wide range of community development activities directed toward revitalizing neighborhoods, economic development, and providing improved community facilities and services.

This project supports the Community Planning vision of the Strategic Plan by maintaining safe and livable communities through well-maintained infrastructure and facilities. For additional information, please visit the City's [Frequently Asked Questions](#) page.
