			t projects.		required. Frevide disouscient sciew.		
If "No"	, provide	e discu	ussion / justification explaining wh	y the project i	s <u>not</u> a "development project":		
Cton !	2. Com	oloto o	wastiana halaw far Draigat Tyna I	Dotormination			
			uestions below for Project Type I				
The p	roject is	(selec	et one): New Development	□ Redev	relopment		
The total proposed, newly created and/or replaced impervious area is: ft²							
Is the	project i	n any	of the following categories, (a) th	rough (f) belov	w?		
Yes	No	(a)	New development projects or i	redevelopmen	t projects that create and/or replaced		
					surfaces (collectively over the entire		
			1 ' '	mercial, indus	trial, residential, mixed-use, and public		
Voo	No	/b)	development projects.	rooto and/or	replace 5 000 equate fact or more of		
Yes	No	(b)			replace 5,000 square feet or more of tire project site on an existing site of		
					surfaces). This includes commercial,		
			industrial, residential, mixed-use	•	•		
Yes	No	(c)	New and redevelopment project	cts that create	e and/or replace 5,000 square feet or		
				•	er the entire project site), and support		
			one or more of the following use				
			· · · · · · · · · · · · · · · · · ·		d as a facility that sells prepared foods		
and drinks for consumption, including stationary lunch counters an refreshment stands selling prepared foods and drinks for immediate							
			consumption (SIC code	•	22 .2340 and animo for infinodiate		

Stormwater Intake Form for All Developments and Standard / Basic Project SWQMP

			(ii) Hillside development projects. This category includes development on any		
			natural slope that is twenty-five percent or greater.		
			(iii) Parking lots. This category is defined as a land area or facility for the		
			temporary parking or storage of motor vehicles used personally, for		
			business, or for commerce.		
			(iv) Streets, roads, highways, freeways, and driveways. This category is		
			defined as any paved impervious surface used for the transportation of		
			automobiles, trucks, motorcycles, and other vehicles.		
Yes	No	(d)	New or redevelopment projects that create and/or replace 2,500 square feet or		
			more of impervious surface (collectively over the entire project site), and discharge		
			directly to an Environmentally Sensitive Area (ESA). "Discharge directly to" includes		
			flow that is conveyed overland a distance of 200 feet or less from the project to the		
			ESA, or conveyed in a pipe or open channel any distance as an isolated flow from		
			the project to the ESA (i.e. not commingled with flows from adjacent lands).		
			Note: ESAs are areas that include but are not limited to all Clean Water Act		
			Section 303(d) impaired water bodies; areas designated as Areas of Special		
			Biological Significance by the State Water Board and SDRWQCB; State Water		
			Quality Protected Areas; water bodies designated with the RARE beneficial		
			use by the State Water Board and SDRWQCB; and any other equivalent		
			environmentally sensitive areas which have been identified by the		
			Copermittees. See manual Section 1.4.2 for additional guidance.		
Yes	No	(e)	New development projects, or redevelopment projects that create and/or replace		
			5,000 square feet or more of impervious surface, that support one or more of the		
			following uses:		
			(i) Automotive repair shops. This category is defined as a facility that is		
			categorized in any one of the following SIC codes: 5013, 5014, 5541, 7532-		
			7534, or 7536-7539.		
			(ii) Retail gasoline outlets. This category includes retail gasoline outlets that		
			meet the following criteria: (a) 5,000 square feet or more or (b) a projected		
			Average Daily Traffic of 100 or more vehicles per day.		
Yes	No	(f)	New or redevelopment projects that result in the disturbance of one or more acres		
			of land and are expected to generate pollutants post construction.		
_		L	Note: See BMP manual for exclusions specific to this category.		
Does	the proje	ect me	eet the definition of one or more of the PDP categories (a) through (f) listed above?		
□ Yes	– The p	orojec	t is a <u>Priority Development Project</u> , the applicant shall provide PDP Post		
Construction BMPs and provide a PDP SWQMP. Stop here and complete PDP SWQMP.					
□ No	– Does	the pr	oject propose 500 SF or more of new and/or replaced impervious surface area?		
	□ Yes	– The	project is a Standard Project, the applicant shall implement Structural Post		
Construction BMPs, site design, and source control BMPs.					
Complete Step 3, 4, & 5.					
□ No − The project is a <u>Basic Project,</u> the applicant shall implement site design and					
source control measures. Complete Step 3 & 4.					

Step 3: Source Control BMP Checklist - All "Development Projects" Must Complete

All development projects must implement source control BMPs SC-1 through SC-6 where applicable and feasible. See Chapter 4 and Appendix E of the manual for information to implement source control BMPs shown in this checklist.

Answer each category below pursuant to the following.

- "Yes" means the project will implement the source control BMP as described in Chapter 4 and/or Appendix E of the manual. Discussion / justification is not required.
- "No" means the BMP is applicable to the project but it is not feasible to implement. Discussion / justification must be provided.
- "N/A" means the BMP is not applicable at the project site because the project does not include the feature that is addressed by the BMP (e.g., the project has no outdoor materials storage areas). Discussion / justification may be provided.

areas). Discussion / justification may be provided.			
Source Control Requirement	Applied?		
SC-1 Prevention of Illicit Discharges into the storm drain	□Yes	□ No	□ N/A
SC-2 Storm Drain Stenciling or Signage	□Yes	□ No	□ N/A
SC-3 Protect Outdoor Materials Storage Areas from Rainfall, Run-On, Runoff, and Wind Dispersal	□Yes	□No	□ N/A
SC-4 Protect Materials Stored in Outdoor Work Areas from Rainfall, Run-On, Runoff, and Wind Dispersal	□Yes	□ No	□ N/A
SC-5 Protect Trash Storage Areas from Rainfall, Run-On, Runoff, and Wind Dispersal	□Yes	□No	□ N/A
SC-6 Additional BMPs Based on Potential Sources of Runoff Pollutants (must answer for each source listed below)			
□ Onsite storm drain inlets	□Yes	□ No	□ N/A
□ Interior floor drains and elevator shaft sump pumps drain to sewer	□Yes	□ No	□ N/A
□ Interior parking garages drain to sewer	□Yes	□ No	□ N/A
□ Need for future indoor & structural pest control	□Yes	□ No	□ N/A
□ Landscape/outdoor pesticide use	□Yes	□ No	□ N/A
□ Pools, spas, ponds, decorative fountains, and other water features	□Yes	□ No	□ N/A
□ Food service	□Yes	□ No	□ N/A
□ Refuse/Trash areas must be covered	□Yes	□ No	□ N/A
□ Industrial processes	□Yes	□ No	□ N/A
☐ Outdoor storage of equipment or materials must be covered	□Yes	□ No	□ N/A
□ Vehicle and equipment cleaning	□Yes	□ No	□ N/A
□ Vehicle/equipment repair and maintenance	□Yes	□ No	□ N/A
□ Fuel dispensing areas	□Yes	□ No	□ N/A
□ Loading docks	□Yes	□ No	□ N/A
□ Fire sprinkler test water	□Yes	□ No	□ N/A
□ Miscellaneous drain or wash water	□Yes	□ No	□ N/A
□ Plazas, sidewalks, and parking lots	□Yes	□ No	□ N/A

Stormwater Intake Form for All Developments and Standard / Basic Project SWQMP

Discussion / justification if <u>SC-1 through SC-6</u> not implemented. Justification must be provided for <u>ALL</u> "No" answers shown above.

Step 4: Site Design BMP Checklist - All "Development Projects" Must Complete

All development projects must implement site design BMPs SD-1 through SD-8 where applicable and feasible. See Chapter 4 and Appendix E of the manual for information to implement site design BMPs shown in this checklist.

Answer each category below pursuant to the following.

- "Yes" means the project will implement the site design BMP as described in Chapter 4 and/or Appendix E of the manual. Discussion / justification is not required.
- "No" means the BMP is applicable to the project but it is not feasible to implement. Discussion / justification must be provided.
- "N/A" means the BMP is not applicable at the project site because the project does not include the feature that is addressed by the BMP (e.g., the project site has no existing natural areas to conserve). Discussion / justification may be provided.

Source Control Requirement	Applied?		
SD-1 Maintain Natural Drainage Pathways and Hydrologic Features	□Yes	□ No	□ N/A
SD-2 Conserve Natural Areas, Soils, and Vegetation	□Yes	□No	□ N/A
SD-3 Minimize Impervious Area	□Yes	□ No	□ N/A
SD-4 Minimize Soil Compaction	□Yes	□ No	□ N/A
SD-5 Impervious Area Dispersion - Directly Connected Impervious Areas (e.g. roof downspouts connected to street) are not allowed	□Yes	□No	□ N/A
SD-6 Runoff Collection	□Yes	□ No	□ N/A
SD-7 Landscaping with Native or Drought Tolerant Species	□Yes	□No	□ N/A
SD-8 Harvesting and Using Precipitation	□Yes	□ No	□ N/A

Discussion / justification if $\underline{\text{SD-1}}$ through $\underline{\text{SD-8}}$ not implemented. Justification must be provided for $\underline{\text{ALL}}$ "No" answers shown above.

<u>Step 5:</u> Standard Project BMP Sizing for ≥500sf New/Replaced Impervious Surface Areas				
Projects that create and/or remove and replace 500sf or greater of impervious surface collectively over the entire project site shall provide natural biofiltration and/or bioretention BMPs. The applicant may use the Design Capture Volume method (attach calculations hereon; see Appendix B of BMP Design Manual), or may utilize the following calculation:				
MINIMUM EFFECTIVE BMP AREA = 0.04 x Total new and/or removed and replaced impervious surfaces				
Describe the selected Structural BMP Design including type, location, size, etc. below:				
Project Owner's Certification:				
1. I hereby acknowledge that my project is subject to the stormwater quality regulations of the City of Encinitas and certify that my project will provide satisfactory stormwater quality measures both during the construction process and afterwards.				
2. If my project is designated as a Priority or a Standard Project, I further acknowledge my understanding that the permanent stormwater treatment features must remain in place, be inspected at least once annually, and be maintained in good working order. Removal or modification of these features without prior City authorization is prohibited.				
3. I certify that I have reviewed the information contained in this form and verified that it is both complete and correct.				
□ By checking this box, I hereby certify that I understand and will adhere to Items 1, 2, and 3 as outlined above.				
Owner Name/Company Date				
Agent's Certification:				
By checking this box, I hereby certify that this project will be designed in conformance with the stormwater quality regulations of the City of Encinitas and that I have reviewed the information contained in this form and verified that it is both complete and correct.				
Agent Name Date				
Working Capacity of Agent (architect, engineer)
