(Please provide property address or nearest property address if possible.)

Nearest Cross Street/s: Wotan and Melba Road

(continued on next page)

TREE INFORMATION (continued)

MONTEREY PINE

Tree Species: _____ Botanical Name: Pinus radiata _____

Estimated Height: 20-25 ft Est. Canopy Width: _____ Est. trunk diameter*: 10-12 ft ~~12-15~~

*Trunk diameter should be estimated approximately 4½ feet above the ground.

12-15 inches

Condition (health): Good _____

Estimated Planting Date: _____ This may have been a replacement tree I cannot find the tree number on tree tracker or maybe the 12154ETREE they are referring to on the tree tracker.

Specific proof of planting date may be difficult to determine, but an estimate based on the age of surrounding development and/or the size of the tree is adequate.

HISTORY AND NOTES

Provide any history or notes you have about this tree or these trees. Please feel free to attach any additional history information separately. **Include photos of the nominated tree/s with this nomination form. PHOTOS OF THE TREE/S ARE REQUIRED FOR THIS FORM TO BE ACCEPTED.**

This tree appears to contribute to the tree tunnel on Melba and I would like them included in the Heritage Tree Grove application. This one may have been a replacement to a tree that had died from beetles and that is why it is not on the tree tracker for Encinitas.
