HARDSCAPE/ DRAINAGE PERMIT FEES & INFORMATION

A Hardscape/Drainage permit is required if 500 square feet or more of new and/or removed and replaced impervious surface is proposed. A permanent post construction structural BMP such as a bioretention basin or biofiltration basin shall be provided to collect and treat all runoff generated by the new and/or removed and replaced impervious surfaces prior to discharge from the site. Additionally, a landscape area may be designed and/or designated and utilized as a permanent post-construction BMP area

Approved permits are not transferable to another location.

Fees:

Application Fee: \$498

Documentation Required:

- **Site Plan**
- **Stormwater Intake Form & Standard SWQMP**

Please allow a minimum of two weeks to process this permit.
