

## Appendix C: Adequate Sites Analysis

Appendix C contains the site inventory and analysis for the sites proposed to meet the City of Encinitas’ Regional Housing Needs Assessment (RHNA) allocation for the 2013-2021 planning period. The sites are organized to show how the City can meet the need for the four RHNA income categories (Very Low, Low, Moderate, and Above Moderate). That information is summarized in **Table C-1** below.

Table C-1: Adequacy of Sites Inventory					
	Extremely Low/Very Low Income	Low Income	Moderate Income	Above Moderate Income	Total
RHNA (2013-2021)	587	446	413	907	2,353
RHNA Carryover (2003-2013)	253		--	--	<del>250</del> 253
Units Built/Approved	33	33	4	892	962
Accessory Unit Production	<del>50</del> 79		<del>--</del> 54	--	<del>50</del> 133
Remaining RHNA	<del>1,170</del> 1,141		<del>409</del> 355	15	<del>1,594</del> 1,511
Candidate Site Unit Yield	<del>1,621</del> 1,431		<del>526</del> 492	<del>187</del> 177	<del>2,260</del> 2,100
<b>Total Capacity Over RHNA Need</b>	<del>451</del> 290		<del>117</del> 137	<del>172</del> 162	<del>740</del> 589

All sites were reviewed in order to ensure compliance with state law. The sites chosen meet that criteria and show the highest potential to redevelop for residential use within the planning period.

### 1.1 Availability of Water, Sewer, and Dry Utilities

The City of Encinitas has evaluated the availability of infrastructure from a Citywide and site-specific standpoint. In determining the feasibility of sites to accommodate the City’s RHNA needs, infrastructure provision was a determining factor. As described in Appendix B under ‘Environmental Constraints and Infrastructure,’ the City has adequate water and sewer capacity to accommodate the planned increase in housing development. The City has reviewed the sites designated for development and has determined that each of the sites designated within each income category is adjacent to a public street that contains distribution facilities for water, sewer, and dry utilities (including cable and telephone). The availability and location of water, sewer and dry utilities and their distribution facilities do not pose a constraint to development.

RHNA Allocation (including carryover) for VL/L Income Categories: <b>1,286</b>		

# NET ACREAGE CALCULATIONS

## Very Low/Low Income RHNA Candidate Sites

### CALCULATION METHOD

The net acreage for each candidate site was calculated based on the gross acreage (for all parcels included in the site) minus the acreage deemed partially or completely undevelopable based on existing steep slopes and known environmental constraints. Environmental constraints were determined based on known site information for the parcels where that information was available and other sources, such as the City's Local Coastal Program and site observations. **The site capacity was determined by applying a 25 du/ac standard to the net acreage for each candidate site.**

The following calculation methods apply to slope constraints (Per the City of Encinitas Municipal Code for purposes of calculating density):

- All land in 0-25% slope of natural grade is allowed to use 100% of acreage.
- All land in 25-40% slope of natural grade is allowed to use 50% of acreage.
- All land in 40% + slope of natural grade is allowed to use 0% of acreage.

All acreages shown on the following sheets include any applicable acreage deductions from the gross acreage. The informational sheets include a note either stating that there were no known topographic or environmental constraints or detailing the acreage removed from the gross acreage and the reasoning.

### WATER AND SEWER AVAILABILITY

As discussed in Appendix B, each site has been evaluated to ensure there is adequate access to water and sewer connections. Each site is situated adjacent to a public street that has the appropriate water and sewer mains and other infrastructure to service the candidate site.

# DEFINITIONS

**Vacant Parcel:** Vacant parcels are generally completely free of structures except for temporary, non-permanent features located on-site. These may include storage containers or other non-permanent facilities. Vacant parcels may also have abandoned facilities where the owner has indicated no interest in reusing them or vacant, non-habitable structures slated for demolition.

**Non-vacant Parcel:** Non-vacant parcels are underutilized or developed parcels and contain existing development or established uses. These may include temporary structures associated with an active use (I.E. agricultural greenhouses) or other uses currently operating on the site.

**Mixed-use Site Capacity:** The mixed-use site capacity was calculated per Section 3.1.2.D of the Encinitas North 101 Corridor Specific Plan, which states a maximum lot utilization of 90% and that residential uses shall not exceed 50 percent of the gross building floor area for the development site. All parcels shown with fewer than 16 units are in common ownership with one or more adjacent parcels or show the potential to be consolidated with one or more adjacent parcels. In these cases, the parcels are considered one site that can accommodate at least 16 units.

**Owner-Interest:** Sites within owner interested listed in the description indicate where the City has been directly contacted by the property owner and received an acknowledgement of their interest in writing, either by email or by a formal letter.

# GREEK CHURCH PARCEL

## SITE NUMBER 01

### SITE DESCRIPTION

This site is a portion of a property owned by the Greek Orthodox Church and part of a larger parcel with existing multi-family residential uses and an existing church. The owner has expressed interest in developing the site for residential uses.

### SITE FEATURES

- Primarily vacant, open space
- Concrete pad

### PARCEL SIZE CALCULATION

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas. Therefore, the parcel's net acreage equals the full gross acreage.

Owner has indicated they are interested in developing 2.00 acres of the 2.50 acre parcel.

<b>APN(S) (Ownership)</b>	2611506400 (STS CONSTANTINE & HELEN GREEK ORTHODOX CHURCH)	<b>PARCEL SIZE (AC) (GROSS/NET)</b>	2.50/2.00
<b>SITE STATUS</b>	Vacant	<b>MAXIMUM DENSITY</b>	30 DU/AC

<b>NEIGHBORHOOD</b>	Cardiff-by-the-Sea	<b>UNIT CAPACITY</b>	50
<b>GENERAL PLAN LAND USE</b>	Rural Residential .51-1.00 (RR1)	<b>CONSTRAINTS</b>	None
<b>ZONING</b>	RR1		

# CANNON PROPERTY (PIRAEUS) SITE NUMBER 02

## SITE DESCRIPTION

This site is a vacant property at the corner of Piraeus Street and Plato Place, both of which are 2-lane local streets. The southern portion of the site is flat due to previous grading, with the majority of the rest of the site sloping up towards a flat pad on the northeast corner. The owner has expressed interest in developing this site for residential uses.

## SITE FEATURES

- Vacant, natural landscape
- Partially graded
- Some mature trees/vegetation on the northern portion of the site
- Slight topography change

## PARCEL SIZE CALCULATION

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas. Therefore, the parcel's net acreage equals the full gross acreage.

<b>ZONING</b>	RR2		

# L-7 PARCEL

## SITE NUMBER 03

### SITE DESCRIPTION

This site is a vacant property surrounded by low density single-family residential uses and agricultural greenhouses to the north. The site sits adjacent to a two-lane arterial with bicycle lanes in each direction and a raised center median. The site slopes gently from the east up to the west and has an existing concrete building pad in the southeast corner. This site is owned by the City of Encinitas.

Affordable housing developers have expressed interest in developing the site. If used for affordable housing, the site can be transferred directly to an affordable housing developer under G.C. Section 37364. The City is also exploring whether the site could be traded for another site where an equal number of housing units could be developed at possibly lower cost. If such a site is identified during the review period, the City may propose substituting that site for this one.

### SITE FEATURES

- Vacant, natural landscape
- Existing concrete pad in the southeast corner
- Paved ingress/egress point
- Some mature trees and vegetation

### PARCEL SIZE CALCULATION

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas. Therefore, the parcel's net acreage equals the full gross acreage.

<b>APN(S) (Ownership)</b>	2570111700 (CITY OF ENCINITAS)	<b>PARCEL SIZE (AC) (GROSS/NET)</b>	7.60/7.60
<b>SITE STATUS</b>	Vacant	<b>MAXIMUM DENSITY</b>	30 DU/AC
<b>ADDRESS(ES)</b>	634 Quail Gardens Lane	<b>MINIMUM DENSITY</b>	25 DU/AC
<b>NEIGHBORHOOD</b>	Leucadia	<b>UNIT CAPACITY</b>	190
<b>GENERAL PLAN LAND USE</b>	Rural Residential .51-1.00 (RR1)	<b>CONSTRAINTS</b>	None.
<b>ZONING</b>	RR1		

# ENCINITAS BLVD & QUAIL GARDENS PARCELS

## SITE NUMBER 05

### SITE DESCRIPTION

Parcel 2581111600 is a vacant parcel adjacent to a 6-lane arterial with bicycle lanes in both directions and a raised concrete median. The property has an access road and an existing medical office use to the west. The site has a moderately steep slope from the southern portion of the site to the northern portion and contains existing walking paths and an unpaved access road.

Parcel 2581304500 is a narrow vacant property adjacent to a 6-lane arterial with bicycle lanes in each direction and a raised concrete median. The site rises steeply from the street.

Parcel 2581308100 is a vacant parcel adjacent to a 6-lane arterial with bicycle lanes in both directions and a raised concrete median. The site contains vehicular access points from Encinitas Blvd and Quail Gardens Dr. The site contains a moderate

slope from the western portion up to the eastern portion of the site.

Parcel 2581303400 is landlocked by vacant parcels and contains an older, vacant single-family residential structure and private access road. The landowner has stated that the home is uninhabitable, and it is intended to be demolished.

The owner has expressed interest in developing all of these parcels for residential uses. All parcels are under one common ownership.

<b>APN(S) (Ownership)</b>	2581111600, 2581304500, 2581308100, 2581303400 (SHOWPROP DOWNEY LLC)	<b>PARCEL SIZE (AC) (GROSS/NET)</b>	2581111600 - 2.20/2.20 2581304500 - 0.38/0.23 2581308100 - 1.31/1.31 2581303400 - 1.02/1.02 Total: 4.91/4.78
<b>SITE STATUS</b>	Vacant	<b>MAXIMUM DENSITY</b>	30 DU/AC
<b>ADDRESS(ES)</b>	550 Encinitas Blvd, 696 Encinitas Blvd, Quail Gardens Dr	<b>MINIMUM DENSITY</b>	25 DU/AC
<b>NEIGHBORHOOD</b>	Old Encinitas	<b>UNIT CAPACITY</b>	117
<b>GENERAL PLAN LAND USE</b>	Office Professional (OP)	<b>CONSTRAINTS</b>	<ul style="list-style-type: none"> <li>Steep topography on some portions. Acreage reduced per City code.</li> </ul>
<b>ZONING</b>	OP		
<b>LAND VALUE (2581303400)</b>	\$999,600	<b>TOTAL VALUE (2581303400)</b>	\$1,020,000

NOTE: Land value and total value comparison provided as additional information for all underutilized sites. "Total Value" includes the land value and any improvement value from development on the site.

**SITE FEATURES**

- One vacant, 1-story single-family house
- Some manufactured slopes that are determined to not be a constraint on future development
- Primarily vacant, natural land
- Flat, graded area on the eastern portion

**PARCEL SIZE CALCULATION**

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas on the majority of the site. Therefore, the parcel size reflects the full gross acreage for the following parcels:

- 2581111600
- 2581308100
- 2581303400

Parcel 2581304500 contains 0.15 acres with slopes greater than 40% (Not developable per City of Encinitas Municipal Code). 0.15 acres was removed from the overall gross site acreage to get the 4.78 acre parcel size shown in the table on the preceding page.

# JACKEL PROPERTIES

## SITE NUMBER 07

### SITE DESCRIPTION

Parcel 2160412100 is a vacant property that sits between existing commercial uses and attached residential. The site has an approximately 55' wide driveway adjacent to North Highway 101, a four-lane arterial with bike lanes in each direction and a center median. The site slopes gently up from the east to the west with a slope of less than 25 percent.

Parcel 2160412000 is a vacant parcel adjacent to a four-lane arterial with bike lanes in each direction and a center median. The site contains a vacant restaurant and a large vacant surface parking lot with a single ingress/egress point. The owner states that there is no existing lease and he does not plan to re-let the building

The owner has expressed interest in developing both of these sites for residential and commercial uses. Both parcels are under one common ownership. (F C A Encinitas LLC) The planned multimodal improvements on Highway 101 will not impact the area of the site.

### SITE FEATURES

- One vacant, natural parcel
- Existing 1-story vacant restaurant with outdoor patio
- Large surface parking lot
- Moderate slope adjacent to Highway 10 (less than 25%)
- Existing mature trees and vegetation

### PARCEL SIZE CALCULATION

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas. Therefore, the parcel's net acreage equals the full gross acreage. However, the unit yield has been reduced to reflect the owner's interest in mixed use development.

<b>APN(S) (Ownership)</b>	2160412000, 2160412100 <u>One Owner for all parcels:</u> (F C A ENCINITAS LLC)	<b>PARCEL SIZE (AC) (GROSS/NET)</b>	2160412000 - 1.91/1.91 2160412100 - 1.06/1.06 Total: 2.97/2.97
<b>SITE STATUS</b>	Vacant	<b>MAXIMUM DENSITY</b>	30 DU/AC
<b>ADDRESS(ES)</b>	1950 HWY 101	<b>MINIMUM DENSITY</b>	25 DU/AC
<b>NEIGHBORHOOD</b>	Leucadia	<b>UNIT CAPACITY</b>	33 (if developed at mixed-use ratio)
<b>GENERAL PLAN LAND USE</b>	Visitor Serving Commercial (VSC)	<b>CONSTRAINTS</b>	None.
<b>ZONING</b>	N-LVSC		

# SAGE CANYON PARCEL

SITE NUMBER AD1

## SITE DESCRIPTION

The site is a vacant property surrounded by natural open space and adjacent to a four-lane major road with a striped center turn lane, bicycle lanes going both directions, and parallel street parking along the west side of the road. The parcel is currently for sale by the owner. Based on previous development plans, there are some known environmental constraints that shrink the gross buildable area.

## SITE FEATURES

- Existing mature trees and natural vegetation
- Some steep slopes adjacent to El Camino Real
- Previously graded, vacant area
- Private access point off a roundabout shared by a single-family residential neighborhood

## PARCEL SIZE CALCULATION

Net acreage shown in the table under parcel size was determined from the net buildable area based on numerous studies of the topographic and environmental constraints by the owner.

<b>APN(S) (Ownership)</b>	2620618500 (PACIFIC CANYON LLC)	<b>PARCEL SIZE (AC) (GROSS/NET)</b>	5.23/2.40

- Mature trees and vegetation
- Paved concrete pads
- **Telephone** Power pole lines overhead

**PARCEL SIZE CALCULATION**

Net acreage shown in the table under parcel size was determined based on numerous studies of the topographic and environmental constraints and a 50' riparian buffer requirement for off-site wetlands that encroaches on Parcel 2570203600.

# RANCHO SANTA FE PARCELS (GAFFNEY/ GOODSEN)

SITE NUMBER 08

## SITE DESCRIPTION

Parcel 2592313200 is a vacant parcel adjacent to a 2-lane arterial with bicycle lanes in each direction. The site is surrounded to the north and west by existing low density single-family residential uses. There is a moderate slope on the site rising from the northeast portion of the site to the southern portion.

Parcel 2592312800 is a developed parcel with several 1-story residential structures. It contains a private access road that connects to an adjacent 4-lane major arterial. The site contains existing mature vegetation.

Parcel 2592313000 is a developed parcel with a single 2-story residential structure and is landlocked by low density single-family residential uses, a

vacant parcel, and a strip commercial center. The site contains existing mature vegetation.

Parcel 2592313100 is a developed parcel with a single 1-story residential structure and is landlocked by low density single-family residential uses and a vacant parcel. The site contains existing mature vegetation.

Parcels 2592313200, 2592312800, and 2592313000 are under one common ownership. (Olivenhain Town Center 5.6 L P)

<b>APN(S) (Ownership)</b>	2592313200, 2592312800, 2592313000 <u>One Owner for the above parcels:</u> (OLIVENHAIN TOWN CENTER 5.6 L P)  2592313100 (GAFFNEY DAVID R & RICA G REVOCABLE TRUST 04-11)	<b>PARCEL SIZE (AC) (GROSS/NET)</b>	2592312800 - 3.88/3.57 (Non- vacant) 2592313000 - 0.54/0.54 (Non- vacant) 2592313100 - 0.46/0.46 (Non- vacant) 2592313200 - 1.75/1.45 (Vacant) Total: 6.63/6.02
<b>SITE STATUS</b>	One vacant Three non-vacant	<b>MAXIMUM DENSITY</b>	30 DU/AC
<b>ADDRESS(ES)</b>	Rancho Santa Fe Dr, 2220 Encinitas Boulevard, 2230 Encinitas Boulevard, 2228 Encinitas Boulevard	<b>MINIMUM DENSITY</b>	25 DU/AC
<b>NEIGHBORHOOD</b>	Olivenhain	<b>UNIT CAPACITY</b>	Vacant: 36 Non-vacant: 113
<b>GENERAL PLAN LAND USE</b>	Rural Residential 1.01-2.00 (RR2)	<b>CONSTRAINTS</b>	<ul style="list-style-type: none"> <li>Multiple owners</li> <li>Some landlocked parcels</li> <li>Slight topography</li> </ul>
<b>ZONING</b>	RR2		

Parcel 2592313100 is under a separate ownership (Gaffney David R & Rica G Revocable Trust 04-11). This parcel is landlocked by parcels with separate ownership but could be developed as part of a larger project.

The owners have expressed interest in developing this site (all parcels) for residential uses.

**SITE FEATURES**

- One vacant, natural parcel
- Moderate slopes on the vacant parcel
- Approximately five residential structures ranging from 1-2 stories and spread across multiple parcels
- Existing mature trees and vegetation
- Paved access road

**PARCEL SIZE CALCULATION**

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas on Parcels

2592313000 and 2592313100. Therefore, the parcel's net acreage equals the full gross acreage for this parcel.

The net acreage shown for Parcel 2592312800 reflects the following deductions from the gross acreage:

- 0.61 acres contain slopes between 25 - 40% (developable at 50% per the City of Encinitas Municipal Code)

The net acreage shown for Parcel 2592313200 reflects the following deductions from the gross acreage:

- 0.59 acres contain slopes between 25 - 40% (developable at 50% per the City of Encinitas Municipal Code)

0.60 acres (50% of the overall 1.20 acre reduction due to slopes) was removed from the overall gross acreage to get the parcel size shown in the adjacent table.

# ECHTER PROPERTY

## SITE NUMBER 09

### SITE DESCRIPTION

This site is a large parcel containing mostly temporary greenhouse agricultural structures along with an existing single-family residential structure. The site sits at the junction of a major 4-lane arterial and a local 2-lane road. The owner has expressed interest in developing 250 residential units in conjunction with a working agricultural practice. The owner has completed conceptual renderings and a written description of potential future “Agrihood” housing and agricultural concept. See attached letters.

The Agricultural Zone provisions of the Encinitas Ranch Specific Plan in which the site is located encourage the continued agricultural use of portions of the Specific Plan Area and the provision of a favorable setting in which to continue agricultural operations. The “agrihood” concept proposed allows for the continued viability of an agricultural business on the site.

### SITE FEATURES

- Several buildings serving the agricultural practice on-site
- Temporary covered structures and greenhouses

- Large service tanks
- Interior roads
- Single-family residence in southwest corner

### PARCEL SIZE CALCULATION

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas. **Therefore, the parcel's net acreage equals the full gross acreage for this parcel.**

**However**, only 9.85 acres of the ~~16.90~~ 21.49 gross acres are designated for housing, **with the remaining site intended to remain in agricultural use as an 'agrihood'**. This 9.85 is shown as the net acreage of developable area in the table below.

<b>APN(S) (Ownership)</b>	2546121200 (R E L S INC)	<b>PARCEL SIZE (AC) (GROSS/NET)</b>	21.49/9.85
<b>SITE STATUS</b>	Non-vacant	<b>MAXIMUM DENSITY</b>	30 DU/AC

<b>NEIGHBORHOOD</b>	Leucadia	<b>UNIT CAPACITY</b>	246
<b>GENERAL PLAN LAND USE</b>	Specific Plan 3 (SP-3)	<b>CONSTRAINTS</b>	<ul style="list-style-type: none"> <li>• Owner has indicated interest in only developing 250 units</li> </ul>
<b>ZONING</b>	ER-AG		
<b>LAND VALUE</b>	\$1,180,201	<b>TOTAL VALUE</b>	\$1,736,450

NOTE: Land value and total value comparison provided as additional information for all underutilized sites. “Total Value” includes the land value and any improvement value from development on the site.

# STRAWBERRY FIELDS PARCEL

SITE NUMBER 10

## SITE DESCRIPTION

This site is a partially vacant site located along a major 4-lane arterial with bike lanes in each direction and a striped median. The site is primarily used for agricultural purposes and contains no existing permanent structures. The site slopes gently from the south up to the north and is located across the road from sensitive habitat in the San Elijo Lagoon.

As set forth in many policies of the General Plan the City favors maintaining agricultural uses in the City yet does not require the continued use of agricultural uses.

## SITE FEATURES

- Graded site sloping gently away from Manchester Avenue
- Existing agricultural rows and temporary greenhouse structures
- Dirt roads, no paved roads on-site

## PARCEL SIZE CALCULATION

The net acreage shown for this parcel reflects the following deductions from the gross acreage:

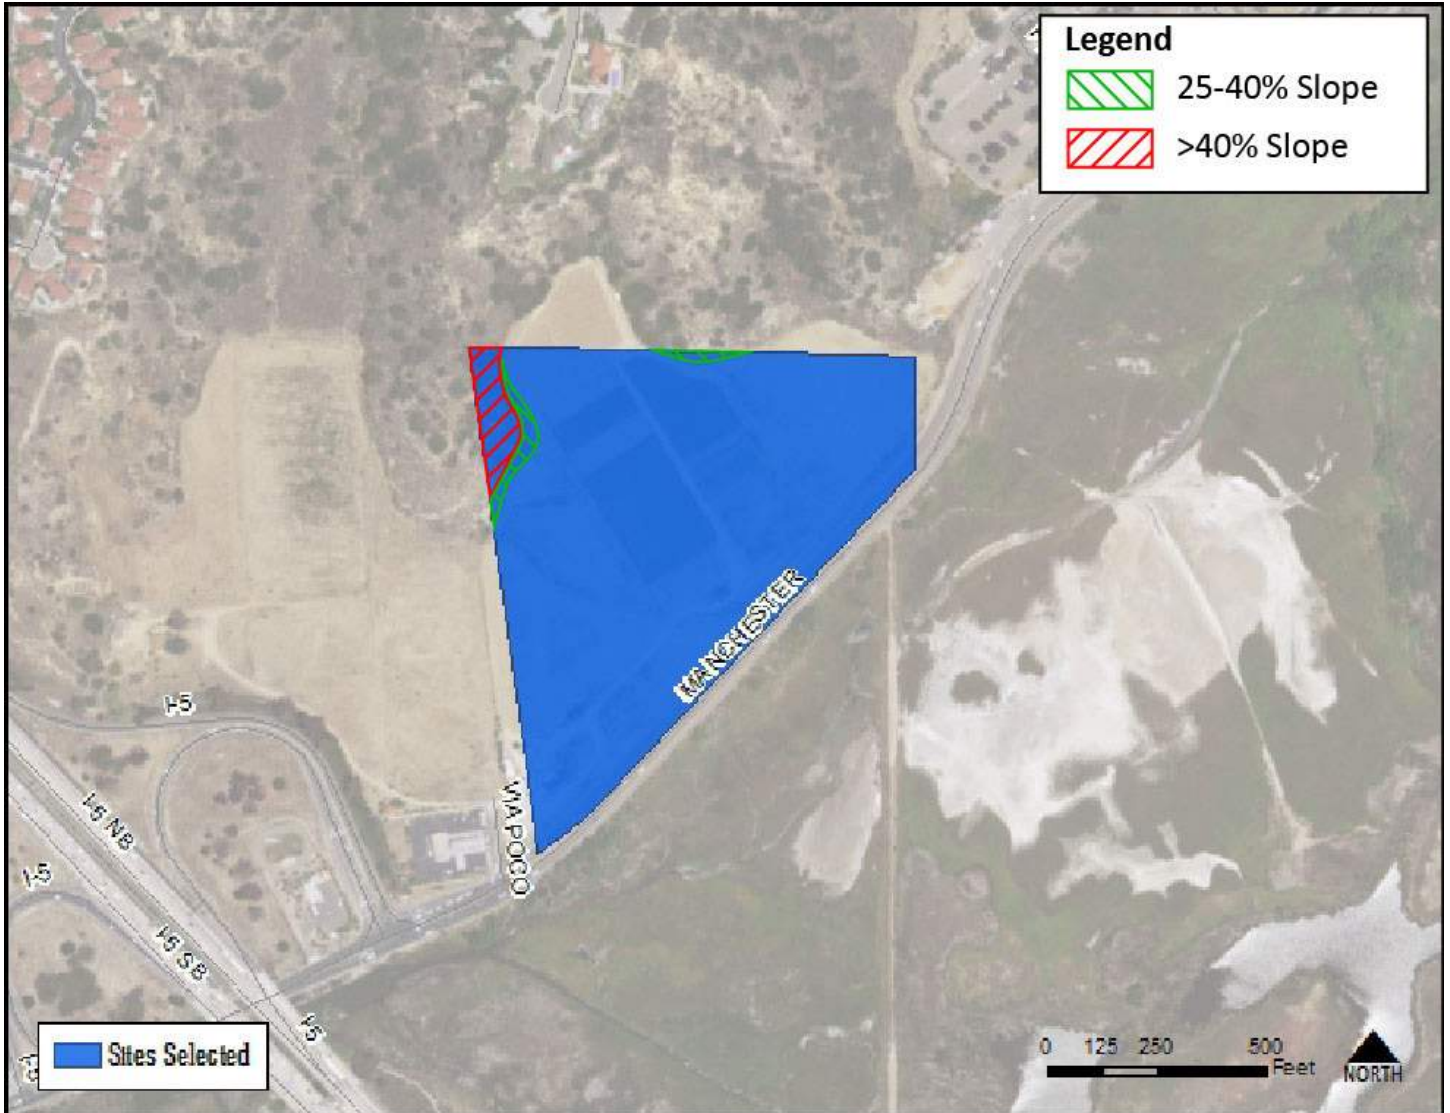

- 0.86 acres contain slopes between 25 - 40% (developable at 50% per the City of Encinitas Municipal Code)
- 1.21 acres contain slopes greater than 40% (not developable per the City of Encinitas Municipal Code)

Only 9.85 acres of the 16.90 gross acres are designated for housing. This 9.85 is shown as the net acreage of developable area in the table below.

# SUNSHINE GARDENS PARCELS

## SITE NUMBER 12

### SITE DESCRIPTION

Parcel 2581309700 is an underutilized parcel comprised primarily of a paved surface parking lot and a variety of retail uses in both permanent and temporary structures. The site is adjacent to a 4-lane major arterial with bicycle lanes in each direction and a paved center median. The site has been graded to be mostly flat with moderate slopes directly adjacent to Encinitas Blvd.

Parcel 2581309900 is an underutilized parcel comprised primarily of a single-story commercial building, a paved surface parking lot, and a variety of retail uses in both permanent and temporary structures. The site is at the intersection of a 4-lane major arterial and a 2-lane collector role.

The owner has expressed interest in developing these sites for residential uses. Both parcels associated with this site are under one common ownership. (CAM-MAR Growers)

### SITE FEATURES

- 1-story commercial building
- A variety of retail uses
- Several temporary agriculture and outdoor sales related structures
- Large paved surface parking lot
- Unpaved dirt areas

### PARCEL SIZE CALCULATION

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas. Therefore, the parcel's net acreage equals the full gross acreage for this parcel.

# VULCAN & LA COSTA COSTA

SITE NUMBER AD8

## SITE DESCRIPTION

This site is a non-vacant parcel with existing agricultural uses and several 1-story structures related to agricultural sales. The property is adjacent to N Vulcan Avenue, a two-lane local arterial. The majority of the site is occupied by temporary agricultural structures such as greenhouses. The owner has expressed interest in developing this site for residential uses. The low intensity of existing uses makes it a suitable candidate for potential residential development. The owners has expressed interest in developing this site for residential uses.

As set forth in many policies of the General Plan the City favors maintaining agricultural uses in the City yet does not require the continued use of agricultural uses.

## SITE FEATURES

- Greenhouse structures and frames
- 1-story structures related to agricultural uses (sales/storage)
- Small paved parking lot

## PARCEL SIZE CALCULATION

There are no known physical constraints to development due to steep slopes or environmentally sensitive areas. Therefore, the parcel's net acreage equals the full gross acreage for this parcel.

## C.2 Moderate and Above Moderate Candidate Sites Inventory

### Calculation of Unit Capacity.

The City of Encinitas is a generally “built out” community, with minimal available land for residential development. The city understands the ability to accommodate future RHNA need is challenged by this lack of available land for residential development. Therefore, future growth needs must be accommodated through the recycling of current uses or the higher utilization of existing residential sites.

Encinitas has grown from its agricultural roots to a more modern, suburban community. As development continues to change throughout the region and demand outpaces supply of housing, Encinitas has begun to look at the reuse, recycling and intensification of land to accommodate anticipated future growth need. Once a traditional commercial corridor, Pacific Coast Highway has begun to evolve as a unique coastal urban infill opportunity area. The city’s adoption of the Downtown Encinitas Specific Plan and the North Highway 101 Corridor Specific Plan provide the policy guidance for the transition to residential and mixed use development along this Corridor.

For properties in Mixed Use zones, unit capacity has been calculated with an assumed mid-range density, based on the assumption that a portion of the site may permit non-residential development. Therefore, a midrange density of 15 du/ac has been assumed for calculation purposes. While site development potential for residential can be much higher, the city assumes a mid-range calculation as a conservative estimate of development yield.

### Process of Site Evaluation

The City conducted a review of sites that have recently converted to residential to accommodate Moderate and Above Moderate Income Households. Within the Downtown, Highway 101 and adjacent areas, there are constructed units or permits issued for 63 units in the Downtown and North Highway 101 areas. The 17 separate applications are for the demolition of and/or construction of residential units in previous commercial properties. Through the adoption of the Specific Plans in these area, the intent is to expand opportunities for residential and commercial activity in a more urban setting.

The following factors contribute to the evaluation of appropriate sites for moderate market-rate units:

1. **Access to Coast Highway** – sites with direct access to Coast Highway or directly adjacent it was deemed the ideal location for infill development
2. **Sites exhibiting adjacent changes or significant investment** – these including sites adjacent to major transportation facilities, new developments, mixed use development or major roadway improvements or planned improvements.
3. **Sites exhibiting substantial underutilization** – these sites are long term commercial retail, industrial or antiquated buildings that are deemed highly underutilized. These area typically smaller sites. These sites include sites zoned R11 and R25. The R11 and R25 sites are prime candidates of second units and subdivisions as they are substantially underutilized
4. **Accessibility to Water, Sewer and Utilities** – Adjacent infrastructure should be available and/or already served on the site.
5. **Sites exhibiting lot consolidation potential** – site that are perceived with potential to consolidate with adjacent parcels.

The recycling or reuse of existing developed sites has been a very successful means to accommodate growth in areas previously thought to be unavailable for growth. Table C-2 shows the listing of sites that have transitioned from commercial to residential or mixed use during the planning period.

Table C-2: Infill Development Examples in RHNA Planning Period			
Address	Acreage	Units	Comments
960 COAST HIGHWAY 101	0.18 ac	4	Condo units over retail
687 COAST HIGHWAY 101	1.39 ac	47	Large scale mixed use development
674 COAST HIGHWAY 101	0.09 ac	1	Small lot infill residential over commercial
686 COAST HIGHWAY 101	0.18 ac	1	Small lot infill residential over commercial
402 SECOND STREET	0.11 ac	2	Consolidation of three small lots for infill residential
207 C STREET	0.43 ac	1	Change from commercial to residential over retail – Rhino Arts
97 COAST HIGHWAY 101	0.18 ac	4	Four building mixed use development or commercial and residential
1202 COAST HIGHWAY 101	0.25 ac	3	Consolidation of four parcels into mixed use live/work units.
<b>Total</b>	2.84 ac	63 units

# MAP OF MODERATE AND ABOVE MODERATE SITES

## **CALCULATION OF UNIT CAPACITY**

The capacity of these sites was initially determined by multiplying the parcel size by the minimum or midrange density for that zoning designation.

In mixed-use areas (Downtown and North 101 Specific Plan Areas), only sites large enough to accommodate at least four dwelling units were included to identify those sites most likely to be redeveloped. The site capacity was then further reduced based on the likelihood of redevelopment, as described in Appendix B. In particular, only 50 percent of the capacity of the sites in the DCM-2, D-VSC and D-OM Zones of the Downtown Encinitas Specific Plan, as well as the N-CM1, N-CM2, N-CM3, N-CRM1, and N-CRM2 Zones of the North 101 Corridor Specific Plan, has been counted to recognize constraints posed by existing uses. Because redevelopment is most likely in the DCM-1 Zone, 75 percent of the capacity of the DCM- 1 Zone has been counted. These deductions have resulted in a very conservative estimate of the development potential of the mixed use area.

## **SELECTION OF SITES**

The sites contained in this inventory of moderate and above-moderate income sites were previously presented to HCD as part of the Housing Element placed on the ballot as Measure T. This Appendix C contains a selection of those sites that are most likely to be developed. Sites have been removed that have already been developed, and those that could accommodate fewer than four units, in mixed use zones, or only one unit, in residential zones. The City has relied on the detailed analysis contained in the Measure T Element regarding the development potential of these sites.

## **WATER AND SEWER AVAILABILITY**

As discussed in Appendix B, each site has been evaluated to ensure there is adequate access to water and sewer connections. Each site is situated adjacent to a public street that has the appropriate water and sewer mains and other infrastructure to service the candidate site.

## **C.4 Letters of Interest From Property Owners for Very Low and Low-Income Candidate Sites**

METROPOLIS OF  
SAN FRANCISCO

## SAINTS CONSTANTINE AND HELEN GREEK ORTHODOX CHURCH

---

### NEW LETTER OF INTEREST

May 3, 2018

Ms. Diane Langager  
505 South Vulcan Avenue  
Encinitas, CA

Dear Ms. Langager:

We at Saint Constantine and Helen Greek Orthodox Church are pleased to be considered as part of the City of Encinitas Affordable Housing Program. We have had affordable senior housing on the church property for over thirty years. Our 30 existing units and the units that we propose to build are and will be available for tenancy to the general public, there is not and will not be a religious or church membership requirement for tenancy.

Thank you for your kind attention.

Sincerely,

Anne Panagakos  
President  
Parish Council

**Brandi Lewis**

**Subject:** CANNON PROPERTY : PIRAEUS / PLATO HOUSING ELEMENT SITE ANALYSIS  
**Attachments:** ENCINITAS HOUSING ELEMENT SITE ANALYSIS.pdf

Diane:

This letter is to advise you that the Cannon Family desires to have their property referenced above considered in the Encinitas Housing Element Site Analysis for upzoning to 30 DU per the ongoing discussions with the City Planning Department.

This site is shown in the Leucadia -Vacant portion of the Site Analysis planning and is also known as APN 254-144-01 comprising approximately 6.93 acres.

Thank you for your time last week explaining these efforts / directions by the City of Encinitas.

We shall stay in touch and continue to follow the planning.

Best regards,

Bo Havlik  
 Real Estate Consultant  
 Cannon Family Properties

**RE: Encinitas Blvd & Quail Gardens 4,92 AC vacant land, for Housing Element Review**

Dear Diane,

We wanted to re-express our interest in moving forward with a multi-family residential development immediately upon a successful rezone from Office Professional Zone to a Residential Zone of R25-R30. Our interest is contingent upon the City of Encinitas finalizing development standards that adequately support this level of density. Currently, we do not believe that the current zoning limitations of two-stories and 30 foot height maximum will achieve this.

We would like to retain our right to develop under the current Office Professional Zone, as this will be the direction we will pursue In the event that acceptable development standards cannot be approved for the R25-R30 zone.

We believe this property should be moved to the "Vacant Land" category, as the current single family dwelling is uninhabitable and has been effectively boarded up and vacant for years. If it helps your cause, we will be willing to demolish the dwelling.

**Please also be advised that we will plan on processing plans to develop the property soon after a successful rezone to Residential.**

Please feel free to call me if you would like to set up a meeting to discuss this further or need further clarification regarding our intentions.

Best regards,

George Krikorian

**RE: APNs 216-041-20 and -21 for Housing Element Review**

Dear Diane:

As you know, we recently purchased the approved and entitled approximately 4 acres Encinitas Beach Resort hotel site at the north end of Leucadia (APN 216-041-26) as well as the adjacent approximately 3.5 acres (APNs 216-041-20 and -21) that are currently not part of the entitled project. As a follow-up to my January 4, 2018 message, regarding the adjacent 3.5 acres, I wanted to express our further interest in moving forward with a rezone from the current LVSC designation to NCRM-1, with the addition of the R-25-R-30 density which would allow for a mixed-use project on the site and allows the required standards for the Housing Element Plan.

As you may be aware, we are in the process of moving forward and commencing construction on the currently entitled project. We want to insure the City of Encinitas that development can begin on the adjacent parcels as soon as the zoning is approved, and plans are processed and approved.

Worth mentioning, is that the existing "Cabo Grill" building has been boarded up and fenced off. We plan to demolish this building upon commencing construction of the adjacent parcels.

Please feel free to call me if you would like to set up a meeting to discuss this further or need additional clarification regarding our intentions.

Best regards,

Larry Jackel

**Subject:** Housing Element Update - Sage Canyon (site #AD1)

Diane,

I have entered into a purchase agreement to acquire the 5.23 acre vacant parcel of land located on El Camino Real just south of Sage Canyon Drive. The site is currently entitled for a residential subdivision consistent with the existing R-3 zoning. Please be advised that I would be interested in modifying the existing plans to create additional housing units should the City choose to increase the allowable density as part of the Housing Element Update.

Regards,

Keith Harrison

Hi Diane,

Yes, I'd like to confirm that we are interested in having this site considered for upzoning to higher density residential.

I sent you another email with a smaller file attachment. Please let me know if you have not received it.

Thank you,

Encinitas, CA 92024-3633

Re: Housing Element Update 2017 - APN's (259-231-28, 30, 31 & 32)

Dear Mayor and Council:

We are the owners of approximately 6.59 acres of land with the potential for 198 affordable senior citizen apartments built if the property is zoned consistent with the City's 2016 Housing Element Update. This property was analyzed by Staff based on extensive criteria as having the qualities necessary for it to be placed on the Environmentally Superior Map that was approved by the City Council last year.

These properties are contiguous, have all utilities to site, have gentle topography allowing maximum development, are mostly vacant (currently with only three homes over forty years old on 6.63 acres), are adjacent to commercial property, within a short walk to shopping, restaurants, mass transit and a pharmacy. Equally important is that these properties have access for ingress and egress to both Encinitas Blvd and Rancho Santa Fe Road thus minimizing traffic impacts on either of the Major Regional Collector Roads.

This letter is intended to clarify the record provided by City Staff and its consultants at the recent City Council Housing Element Subcommittee hearings. Our properties have the street addresses of 2220, 2228, and 2230 Encinitas Blvd. These properties should be classified as either "Almost vacant" or at the very least "Underutilized".

The County's tax assessor has determined that the land value comprises about 75% of the total property value clearly demonstrating that the property is mostly vacant. The Tax Assessor has determined that other properties identified in the Kimley Horn reports as "Almost vacant" have land value percentages as low as 19.76% and some of the properties identified as "Underutilized" have land value percentages of 77% and 85%. Clearly, the properties referenced herein should be included in the "Almost vacant" category.

The report prepared by Goldfarb Lipman, a consultant to the City, dated September 21, 2017 on page 4 that the City would have an advantage if it could rezone properties to meet "Fifty percent of the City's lower income RHNA" or 643 units. The document went on the state "Even with the most generous interpretation of site capacity ..." vacant sites designated for lower income housing can accommodate only 525 units. It will therefore be

presumed that the existing uses on these sites impede additional residential development. To overcome this presumption, HCD will likely require evidence such as letter from owners showing an intent to redevelop the site..." This letter is just such a letter and **More Importantly**, the inclusion of these properties (excluding the one already included in the City's calculations) an additional 148 units can be constructed creating 673 housing units on "Vacant" and "Almost Vacant" sites and with letters from property owners showing intent, this letter. As a result, with just this one correction to the City's analysis the City will exceed the 50% threshold of 643 units by 5%.

To confirm, per the above and as we have represented to City Staff many times in the past, we have an agreement to develop our properties together and are focusing on the construction of an apartment community for Senior Citizens. Providing our Senior Citizens a classy place to retire with dignity, amenities and services is good for the Encinitas Community in many ways, including: a) Reduces the demand on City Services; b) Provides affordable housing to our longest residents; c) Allows our Senior Citizens and Grandparents to remain in their community with their loved ones and support network as they need us most; d) Provides more local affordable housing when the older homes vacated become available to new families, and e) Satisfies the laws requiring the provision of housing built at thirty homes per acre.

There is another issue to clear up. The Kimley Horn analysis of various sites for development presented to the Subcommittee on October 16<sup>th</sup> on page 38, attached, states that our sites have "Steep Topography" constraints. This is not accurate. In fact, topography was analyzed by the City in the adopted 2016 HEU EIR Vialble Housing Site ALT-4 stating "Some 10-25% slopes in sections of the property with 20% to 40% in others", attached. In fact, only about 10% of the property exceeds 25% in slope. The EIR also determined that slope was not factor that would eliminate sites from consideration even if it was extensive, which again it is not. Please correct this erroneous representation.

Most importantly, the EIR included our property on the Environmentally Superior Alternative because "it focuses the change in land use to only one of the "four corners" of Olivenhain and supports the viability of the adjacent new mixed use site, O-3", which are the commercial properties between our property and Encinitas Blvd.

Please accept this letter as confirmation that we, the owners of this property, will redevelop the property immediately upon approval of the zoning necessary for such new community and that such project will have a minimal impact on views as determined by the Certified Environmental Impact Report prepared and approved by the City Council in 2016. Based upon this letter, the City and HCD must agree that these sites: a) are "Almost Vacant"; b) Have minimal slope impacts resulting in the property having a excellent development potential; and c) Have a realistic and demonstrated potential for redevelopment during the planning period for this Housing Element Update. Lastly, these

City of Encinitas  
Page 3 of 3  
November 8, 2017

properties remain the "Least Environmentally Impactful" alternative for new housing in the City and allow for a balance of housing throughout the City's five Communities.

Sincerely,

RE  
**IMPACT OF STATE LEGISLATION ON ENCINITAS HOUSING ELEMENT**

In this year's session of the California Legislature, a package of fifteen bills related to housing were passed and sent to Governor Jerry Brown for signature. The Governor has stated publicly that he will sign all fifteen bills. Two of the bills (AB 1397 and AB 879) directly affect the contents of local housing elements. A third bill (SB 166) may affect how many 'surplus' sites the City of Encinitas wishes to include in its Housing Element.

The bills will become effective January 1, 2018. The housing element requirements will then apply to Encinitas because the City's Housing Element has still not been adopted; other San Diego County cities must comply when they update their elements in 2020. Given the need for HCD review and the changes needed in the City's Element even under current law, the City cannot realistically adopt a Housing Element and place it on the ballot before January 1.

The major substantive changes will:

- Make it more difficult to designate non-vacant sites as housing sites; and
- Require more justification for the number of units shown as being accommodated on each site.

Because the majority of the sites shown for upzoning in the Measure T Housing Element were non-vacant sites, the City will likely need to designate additional vacant

San Diego  
619 239-6336  
Goldfarb & Lipman LLP

sites for upzoning. Some of the non-vacant sites previously proposed for upzoning may also not be able to meet the new requirements.

This memo divides the new housing element requirements into: (1) substantive requirements related to designating adequate sites, and (2) additional required analysis. A copy of the bills showing the amendments is attached.

**A. New Adequate Sites Requirements.**

**Background.** Each city in California is required to identify enough suitable housing sites to meet its fair share of the region’s housing need, which is quantified as the RHNA. (Gov’t Code §65583(c).<sup>1</sup>) The RHNA is separated into an allocation for very low and low income housing, moderate income housing, and above moderate-income housing. The City’s RHNA for the 2013-2021 Housing Element is as follows:

Income Category	RHNA (Housing Units)
Very Low and Low	1,286*
Moderate	413
Above Moderate	907

\*Includes 253-unit carryover from 1998-2005 when City did not adopt a Housing Element.

The City’s Housing Element must designate specific sites that can meet its RHNA in each of the three income categories: very low and low; moderate; and above moderate. (§ 65583.2.) In Encinitas, sites suitable for very low or low income housing must be zoned to allow at least 30 units per acre, unless the City can demonstrate that sites zoned at lower density are suitable or that affordable units have actually been constructed. (§§65583.2(c)(3)(A), (c)(3)(B)(iv).).

**Measure T Sites.** The City’s existing zoning can accommodate its share of moderate-income and above moderate-income housing. Measure T proposed to provide sites suitable for lower income housing as follows:

<b>Lower Income RHNA</b>	<b>1,286 Units</b>
New Construction	47*
Accessory Dwelling Units (ADUs)	146**
Rezoned Sites (30 units/acre)	1,987
<b>Total Units Accommodated</b>	<b>2,180 Units</b>
<b>Excess Units (“Buffer”)</b>	<b>894 Units</b>

\*Lower income units constructed or approved through 12/31/12.

\*\*Based on 271 new ADUs and 25 legally converted ADUs in 8-year planning period, 296 total; half assumed to be affordable to lower income households.

Almost all of the 200+ sites designated by Measure T to be rezoned to be suitable for lower income housing were non-vacant sites. In field work, Kimley-Horn identified

<sup>1</sup> All future references are to the Government Code unless otherwise stated.

September 21, 2017

Page 4

Previously the City was required to justify the use of non-vacant sites by considering the extent to which existing uses might be an impediment to residential development, development trends, market conditions, and regulatory incentives. The City must now additionally analyze:

- The City's past experience with converting existing uses to higher densities;
- Current market demand for the existing use; and
- Any leases or other contracts that would perpetuate the existing use or prevent redevelopment for additional residential development. (Proposed §65583.2(g)(1).)

This will require substantial additional analysis of *all* non-vacant sites, *at all income levels*.

Additionally, if the City is relying on non-vacant sites to accommodate 50 percent or more of its housing need for lower income households, an "*existing use shall be presumed to impede additional residential development*, absent findings based on substantial evidence that the use is likely to be discontinued during the planning period." (Proposed § 65583.2(g)(2).)

Fifty percent of the City's lower income RHNA equals 643 units. Even with the most generous interpretation of site capacity and "vacant," vacant sites designated for lower income housing can accommodate only 525 units. It will therefore be presumed that the existing uses on these sites impede additional residential development. To overcome this presumption, HCD will likely require evidence such as letters from owners showing an intent to redevelop the site; abandonment of use and a site for sale; etc.

It is our understanding that owners of many of the non-vacant sites are not particularly interested in residential development. If this is correct, it would be prudent for the City to ensure that vacant sites can accommodate at least half the lower income housing need. Even without this additional presumption, it may be difficult for the City to show that some non-vacant sites designated in Measure T are likely to be redeveloped.

**Additional Analysis of Site Capacity.** For each site shown as suitable for housing the City's Housing Element must show the 'capacity' of the site: how many units can actually be built on the site and at what income level. The units shown within each income category are totaled to demonstrate that the sites designated can accommodate the City's RHNA.

The determination of site capacity is a two-step process:

- If there is a *minimum* density for the site, HCD must accept it; or, the City can demonstrate the capacity of the site (§ 65583.2(c)(1)).

525  
+ 118 - OTC  
-----  
643

- Then, the City must adjust (i.e., reduce) the number of units based on land use controls and requirements for site improvements. (§ 65583.2(c)(2).) AB 1397 also requires 'adjustment' for:
  - 'Realistic capacity;'
  - Densities of approved projects at a similar affordability level; and
  - Availability of utilities. (Proposed § 65583.2(c)(2).)

Kimley-Horn has proposed showing the capacity of each site based on 30 units per acre, which is the *maximum* density permitted, not the minimum density. The Measure T Housing Element showed, for purpose of site capacity, 20 units per acre. It also contained statements that a height limit of two stories could not accommodate 30 units per acre.

To maximize the capacity of each site, and minimize the number of sites needed, the City will need to convince HCD that each site can actually accommodate 30 units per acre within two stories. If HCD does not agree that this is supportable, despite zoning at 30 units per acre, it will demand that the City reduce the capacity of each site as shown in the Housing Element, and upzone more sites for lower income housing. Examples of densities of 30 units per acre accomplished within two stories in other communities may be most convincing.

**Conclusion: Adequate Sites Requirements.** The non-vacant sites included in Measure T should be reviewed to determine if they will be considered feasible for redevelopment given the additional analysis required. To the extent possible, the City should seek vacant sites to upzone to be suitable for lower income housing so that these comprise more than 50 percent of the sites designated for lower income housing. It should also give preference to non-vacant sites whose owners are willing to represent to HCD that they desire to develop housing. The City will also need substantial evidence to convince HCD that 30 units per acre can be accomplished in two stories.

**B. Additional Required Analysis.**

Requirements for additional analysis will increase the length and cost of the Housing Element and may result in demands for additional actions by the City, but will have no direct impact on sites designated for housing. These additional analyses include:

- Constraints posed by "locally adopted ordinances that directly impact the cost and supply of residences" (Proposed § 65583(a)(5));
- Nongovernmental constraints, including requests to develop housing below the densities shown in the housing element; length of time between project approval and submittal of applications for building permits; and

## What you need to know about this site

- Address Location: 2220 – 2230 Encinitas Blvd.
- Assessor Parcel Numbers:  
259-231-28 and 30 to 32
- Study Area Size: 4 parcels with 6.49 gross acres (6.3 net) and includes Viable Housing Site O-4
- Topography: Some 10-25% slopes in sections of the property with 25% to 40% in others
- Zoning: Rural Residential-2 (RR-2), which allows two units per acre
- Site Description: The study area is predominately vacant with three homes, located along a local collector, two-lane roadway. One home serves as a care facility with six or fewer persons.
- Year Constructed: 1950s and mid-1970s
- Site amenities and/or proximity:
  - More than a 3/4 mile to the nearest public school;
  - One block to commercial goods and services;
  - Just over a 3/4 mile to Wiro Park;
  - Adjacent to limited transit (bus service route 304 alt. to San Marcos)

Robert Echter  
R.E.L.S., Inc.  
1150 Quail Gardens Drive  
Encinitas, CA 92024

***Subject: Fox Point Farms – Agrihood Concept Plan***

Dear Mr. Echter,

Dudek understands that you are very interested in having your property (1150 Quail Gardens Drive) included as one of several Housing Element sites identified for high density/affordable housing in the City of Encinitas. While your property has not yet been identified as part of the Housing Element Task Force’s site selection effort to date, Dudek believes that a strong argument can be made for its inclusion based on the lack of site constraints, location adjacent to a major roadway with access to utilities and existing services, development potential, and your willingness to convert a portion of your current agricultural operation to residential uses. All of these criteria meet or exceed The State Department of Housing and Community Development (HCD) requirements for inclusion as a Housing Element site.

Located at the northwest corner of Leucadia Boulevard and Quail Gardens Drive in the Leucadia neighborhood of the City of Encinitas, your approximately 20-acre property is an ideal location for an “agrihood” development. Like accessory dwelling units and multigenerational housing, the agrihood is an old idea made new again. The Urban Land Institute defines an agrihood as a single-family, multifamily, or mixed-use community built with a working farm as a focus. We understand that small-scale commercial farms, such as yours, struggle to compete with large scale industrial agriculture, and there is an opportunity to shift our urban farms from commercial production hubs toward a more community orientation. The agrihood concept provides a mechanism that allows for development-subsidized agriculture that is protected from the larger global economy, ensuring in perpetuity agriculture.

***Agrihood Concept Plan Overview***

In close coordination with Farmer D Consulting and Schmidt Design Group, Dudek has prepared an Agrihood Concept Plan for Fox Point Farms (Attachment 1). The plan pays homage to the

*Robert Echter*

*Subject: Fox Point Farms – Agrihood Concept Plan*

---

agricultural heritage of the site and the City of Encinitas by providing a roughly 50/50 split of residential and agricultural uses in a way that does not segregate either use, but rather encourages intermingling of the two uses in a way that is mutually beneficial. Developing communities in this way can support the growth of urban agriculture and promote a hyperlocal food system that provides Encinitas residents with locally-grown fresh and healthy food.

The concept plan has been developed in a way that is sensitive to the surrounding communities. Substantial buffers have been designed along the perimeter of the property, in the form of orchard paseos (on the west), vineyards (on the south), agricultural uses and parking (on the east), and organic farm fields (on the north). Edible paseos, vertical gardens, greenhouses, community gardens, an event barn, and vineyards are designed into the community and serve as an asset to residents while at the same time respecting the agricultural history of the site.

Source: KTG Y

The bulk and scale of the concept plan is set back from the existing residential development to the west (Fox Point), and pedestrian connections have been made to allow surrounding residents access to the community's resources (farm stands, event garden, education garden, farm-to-table dining area, and trail access to the east via Quail Gardens). Views from Encinitas Ranch Golf Course are maintained by concentrating the development to the south of the site, leaving the northern portion for organic farm fields and programmed open spaces.

### ***Local Agriculture***

As mentioned previously (and detailed in Attachment 2), small-scale farms struggle to compete with large scale industrial agriculture, because they lack economies of scale and access to expensive equipment and technology. Development pressure drives up land costs, pushing farms further and further away from their markets. This results in higher transportation costs and lack of connectivity to the consumer. A high percentage of consumer profits are captured by middle men such as distributors, processors and retailers. Trends are moving in the direction of more competition in the distribution channel with companies such as Amazon buying Whole Foods that will likely drive down the price farmers are paid for their products.

Community farms are provide a solution. Growing food, plants, and other crops that serve the

*Robert Echter*

*Subject: Fox Point Farms – Agrihood Concept Plan*

---

immediate community and provide opportunities for education, events, and agritourism is the type of agriculture we need in Encinitas. There is tremendous value that agriculture can bring in the form of open space, engagement and education while fostering a thriving local food system that improves the health and economic well-being of communities. These community farms can also provide a platform to educate consumers about the complex issues in agriculture and our food system.

### ***Housing and Site Design***

Source: KTG

In keeping with the “Residential Infill (Medium to Large Sites)” neighborhood prototype defined as part of the public outreach program for At Home in Encinitas, this prototype incorporates multi-family of larger scale with single-family attached as the site transitions into the existing single-family. A variety of dense housing types allow for diversity in unit size and income.

The concept plan includes the following housing types (see Attachment 1 for graphic representation):

- Single-family small lot homes with detached garage
- Zero Net Energy Townhomes over artist studios
- Zero Net Energy Row Townhomes with balconies
- Zero Net Energy Flats

The concept plan has been designed at a pedestrian scale, encouraging residents to walk along edible paseos in their front yard rather than driving straight into their garages. Townhomes and single-family small lot homes are all alley-loaded, such that these homes front onto pedestrian walkways or into the main courtyard, overlooking community gardens and the community recreation area. All surface parking areas are located along the edges of the site, giving the plan a “car-less” feel once you are home.

At this concept level, densities are proposed in the range of 20 to 30 units per acre on the approximately 10 acres of land designated for residential uses. The ultimate unit count will be dependent upon how the City and the Housing Element Task Force decide to structure the development standards in the Housing Element.

### ***Proximity to Community Resources***

The site is within walking/biking distance to Capri Elementary School (0.75 miles), shopping centers on El Camino Real (0.75 miles), Paul Ecker Sports Park and the YMCA (0.85 miles), and is 0.7 miles from the Leucadia Boulevard/Interstate 5 interchange. Transit stops are located on Leucadia Boulevard immediately adjacent to the site, providing residents with an affordable means of transportation to these community resources and jobs. Indian Head Canyon, a community resource for open space and trails, is located immediately north of the property.

### ***Commitments***

The property is zoned for agricultural uses, and we understand based on past experience there is always an expectation that agricultural-zoned land should remain as agriculture in perpetuity. However, as local agriculture faces greater challenges in the global market, the long-term feasibility of any agriculture depends on finding creative solutions. The agrihood concept is

Source: KTG Y

one such solution, and definitely the most appropriate solution for this site. Based on our discussions, Dudek understands that you are committed to ensuring in perpetuity agricultural use of approximately 50 percent of the site, and are willing enter into such an agreement if the City is so inclined. As part of this, any future development of the site would be conditioned to structure a program whereby the agricultural uses are partially subsidized through the HOA, or other mechanism, in perpetuity. You will also limit the residential development of the site at 250 units, as a message to the public that you are committed to this conceptual site design and are not interested in allowing outside interests to sacrifice the integrity of this proposal.

*Robert Echter*

*Subject: Fox Point Farms – Agrihood Concept Plan*

---

***Summary***

This concept plan exhibits a true agrihood concept. The site design is highly-amenitized, pedestrian-oriented, sustainable, and provides a mix of housing types, creating opportunities for attainably-priced housing for all income groups. In an era where traditional high-density housing tends to lack open space, amenities, and overall livability, this concept plan strives to serve as an innovative example for other cities to follow. In addition to serving as a benefit to the community, inclusion of the property would assist the City in developing an HCD-compliant Housing Element, while maintaining the historical integrity of Encinitas as a City committed to agriculture.

Please contact me if you have any questions.

Sincerely,

Brian Grover, AICP

## **FOX POINT FARMS AGRIHOOD CONCEPT**

The purpose of this memorandum is to present to the City of Encinitas the unique opportunity to create one of the first agrihoods in San Diego County. The site is the 20-acre Fox Point Farms, at the NW corner of Leucadia Boulevard and Quail Gardens Drive in the City of Encinitas. The site is zoned for agriculture; however, as part of the City's Housing Element Update, an exceptional opportunity has been identified to possibly rezone the property, while ensuring preservation of the agricultural uses onsite at the same time, through the development of an agrihood project. The intent is to design a 50/50 split of residential/agricultural uses on the site in a way that does not segregate either use, but rather encourages intermingling of the two uses in a way that is mutually beneficial. The site has approximately 19 acres of developable space and the initial concept consists of 9.5 acres of real estate and 9.5 acres of urban agriculture. Developing communities in this way can support the growth of urban agriculture and promote a hyperlocal food system that provides society with locally grown fresh and healthy food.

### **Challenges in Agriculture Today**

In general, agriculture faces more challenges in today's global economy compared to other industries, which is exacerbated when farms are located in areas with high land, labor and water costs. Farming is inherently difficult and farmers face more uncertainty than other fields due to increasing challenges with unpredictable weather, pests, disease, and markets. These issues cause many farmers to go out of business and to be forced to sell.

Rising water costs and decreasing water quality are making it more expensive and difficult to farm. In general, the challenging regulatory environment including increased stormwater and strict permitting regulations make it very difficult and expensive to make critical improvements or changes to existing and new infrastructure.

While most agricultural jobs in California are low-paid farm laborers, there are high labor costs and strict labor laws associated with farming, in addition to a lack of affordable housing for farm workers. It is very difficult to find skilled labor with the average age of farmers being over the age of 60. As one of the most injury prone industries, agriculture presents very high insurance rates, especially for workers compensation.

There is also increased risk and regulations around food safety and post-harvest handling. Organic farmers face strict regulations and protocols for organic certification. In organic agriculture, there are increased pressures from insects, disease, pests and disease and more labor is required to maintain ecological homeostasis without the use of herbicides and pesticides. There is a low consumer tolerance for any but perfect produce and local farmers compete with other countries whom have the advantage of much lower labor costs and fewer regulations.

Small scale farms struggle to compete with large scale industrial agriculture, as they lack economies of scale and access to expensive equipment and technology. Development pressure drives up land costs, pushing farms

further and further away from their markets. This results in higher transportation costs and lack of connectivity to the consumer.

A high percentage of consumer profits are captured by middle men such as distributors, processors and retailers. Trends are moving in the direction of more competition in the distribution channel with companies such as Amazon buying Whole Foods that will likely drive down the price farmers are paid for their products.

Commercial farms operating in urban and suburban areas require large trucks for moving goods, which creates a tension between commercial and pedestrian traffic. Smaller scale community farms can be integrated into urban and suburban environments that support both the farmer, consumer and community as a whole.

## **Community Farms**

There is a wonderful opportunity to shift our urban farms from commercial production hubs alone to a balance of less commercial and more community orientation. Growing food, plants and other crops that serve the immediate community and provide opportunities for education, events and agritourism is a much more complementary kind of agriculture for a community like Encinitas.

There is tremendous value that agriculture can bring in the form of open space, engagement and education while fostering a thriving local food system that improves the health and economic well-being of communities. These community farms can also provide a platform to educate consumers about the complex issues in agriculture and our food system. However, community farming has many of the same challenges as commercial farming, but is often less profitable. Challenges that community farmers face include competition for land use and that small farms can't take advantage of economies of scale due to small sizes of farms in urban areas.

Urban community farms rely on community support in the following ways:

- Community Supported Agriculture (CSA)
- Farm stand
- Agritourism
- Education and Events
- Volunteers and charitable support

Community farms are much more diversified in the variety of crops they grow. They often combine multiple farming systems like a vegetable, herb and flower gardens, animals, orchards and food forests, and vineyards. They are welcoming and in fact rely on visitors whereas commercial production farms are not places for public engagement. Community farms bring great value in serving as an urban oasis for ecological diversity, fresh local food, education for all ages and also preserve agriculture where people live.

## **Unique opportunity to be one of the first Agrihoods in San Diego County**

Encinitas has the unique opportunity to create one of the first agrihoods in San Diego County, which can be a model to be followed by other agricultural property owners to ensure preservation of a portion of their agricultural uses in perpetuity. Like accessory dwelling units and multigenerational housing, the agrihood is an old idea made new again. The Urban Land Institute has identified over 200 agrihoods across the country and defines an agrihood as a single-family, multifamily, or mixed-use community built with a working farm as a focus. In their report "Cultivating Development: Trends and Opportunities at the Intersection of Food and Real Estate," they state:

*“Real estate decision makers – developers, owners, property managers, designers, investors, and public officials – are increasing collaborating with an array of partners to leverage growing consumer interest in food. Partnerships with chefs, farmers, universities, private foundations, nonprofit organizations, and public health officials are supporting the creation of food-centric development projects that lead to multiple wins, including improved health outcomes, reduced pollution, and enhanced financial advantages for developers.”*

Agrihood residents can participate in all kinds of farm activities, including growing and harvesting produce under the tutelage of experienced farmers; buying shares in a community-supported agriculture (CSA) program, which ensures a steady supply of fresh and local produce to a homeowner’s table every week; attending cooking classes and demonstrations; and shopping at the farmer’s market.

A well-managed farm program also engages homeowners on a deeper level: their children’s future. Kids learn about growing and preparing their own food, enriching soil fertility, and the importance of birds and insects in the food chain.

## **Fox Point Agrihood Design Program**

### **Urban agricultural land set aside in relationship to integrated agricultural areas in urban spaces**

Generally speaking, agricultural development as a percentage of a real estate project is thought of in terms of being maintained in perpetuity. For example, if X acres are committed to agriculture, then usually a substantive amount of that land is protected into the future and that is what is regarded as "set aside" for protected agriculture. Within that scope, a limited amount can be placed in the urban spaces between buildings and it is more for small scale applications and building character, which is more for perennials than annual production.

Agriculture managed in urban spaces is difficult to maintain in perpetuity, as those urban space uses will change over time as residents come and go, HOA's changes in composition, etc. Only limited amounts of area can be located for urban agriculture within urban spaces as there are other competing green space needs for gathering areas, greens, etc. Finally, the agriculture within urban spaces may require different ongoing management than the farmer working on the main farm area.

A rule of thumb for working out the amount of agricultural area within an agrihood would be a minimum of ag area represented within the urban spaces (ideally connecting to the farm), limited area on the periphery (integrating the surrounding neighborhood areas to the farm) and the vast majority as contiguous, protected land for the farm. In the case of Fox Point Farms, the breakdown of 9.85 acres consists of 7.5 acres in the contiguous farm area, 2 acres on the peripheral area in orchards, vineyards and other perennials and 0.35 acres within the urban spaces. Using this rule of thumb, the project proposes the following uses:

Uses within 7.5 acre contiguous farm area

- Event Green
- Event Barn
- Operations center/post harvest center
- Back of house/services/equipment storage, etc.
- Small animal area
- Farm fields- annual production
- Education gardens
- Greenhouses/hoop houses
- Pond - surface water and water storage areas
- Wildlife areas/pollinator gardens, nut trees

Uses within 2 acre peripheral perennial area

- Orchards
- Vineyards
- Wildlife areas/pollinator gardens, nut trees

Gardens/Perennials within urban spaces - 0.35 acres

- Trellis grapes
- Vertical landscaping
- Kitchen gardens
- Community gardens
- Edible landscaping

### **Farm Character**

The open farm areas adjacent to the real estate development are what give it its farm character (looking out over the farm). And since it is community agriculture, the farm open area is designed to be broken up into a number of pieces that residents can immerse themselves into (the farm becomes a bit of a village in that sense - where the community can immerse and have a number of different rich experiences with berries, flowers, pollinator gardens, orchard boscs,, trellised grapes, pavilions..... not just production fields).

### **Farm Markets**

Food grown and produced on the farm is for a CSA program designed for resident and surrounding neighbors, farm stand/store/cafe, clubhouse dining and value-added goods.

### **Pedestrian/Car relationship**

Success is more immanent within an agrihood when there are no streets/parking to cross between the majority of the homes and the farm aspects using alley loaded homes and edge parking lots.

### **Water/Irrigation**

Buying water is expensive for irrigation and particularly during droughts - better to supplement with surface rainwater collection and by well water when applicable.

### **Case for Rezoning**

We are moving from a single use, industrial model of agricultural operations to a community-oriented agricultural model that will preserve 1/2 the land for agriculture, offer fresh produce and food products to the surrounding neighborhood as well as unending opportunities for education, events, etc. The project would respect and preserve the agricultural heritage of Encinitas, while also providing for a mix of housing types to meet the needs of all Encinitas residents.

**RE:** *Sunshine Gardens Site at Encinitas Blvd & Quail Gardens, approximately 3  
AC vacant land for Housing Element Review*

Dear Diane:

We wanted to express once again our interest and commitment in moving forward with a multi-family residential development immediately upon a successful rezone from Office Professional Zone to a Residential Zone of R25-R30.

Our commitment is contingent upon the City of Encinitas finalizing development standards that adequately support this level of density and we are concerned and do not believe that the current zoning limitations of two-stories and 30-foot height maximum will achieve the required results.

We want to insure the City of Encinitas that development can begin as soon as the zoning is approved by the Coastal Commission and plans are processed and approved. We own the Sunshine Gardens business and have short term leases with the other tenants that will all expire prior to the rezoning and entitlement process.

We would also like to stress that the structures on the property are temporary and can be demolished very easily.

Please feel free to call if you would like to set up a meeting to discuss this further or need further clarification regarding our intentions. Thank you.

Best regards,

A handwritten signature in black ink that reads "Ron Martin". The signature is written in a cursive style with a prominent loop at the end of the last name.

**Subject:** request for consideration for zone change. @ acres coastal Encinitas

Hello, Linda, Diane, and Tony

We would like to submit our land, 1967 N Vulcan Ave, Encinitas CA 92024, for consideration from the Houseing Element Task Force.

The subject property is 2 Acres and is currently under used, flower field, shop, old resident, etc...

Please let us know what to do in order to be under consideration for the future zoning changes,

*Sincerely,*
