46	5	10	-5	Electric Fleet Vehicles (30+) (incl. Plug-In Electric Fire Engine) & EV Charging for City Fleet/Facilities (CAP Measure MCET-1)	Future need of 30+ light duty vehicles, medium/heavy duty, and fire engines, as well as EV charging at community center, fire stations, wastewater, and expansion. This project is related to the Advanced Clean Fleets legislation passed in 2023 which mandates the 100% transition of municipal fleets to zero-emission vehicles by 2035.	Public Works	Public Works	Public Works Presentation to ITF	Climate Action Plan	\$ 7,000,000	Yes	N/A	Cost of an electric fire engine is \$3M. This is included in the cost estimate. CAP does not currently mandate fire to be converted, but that could change in the updated CAP (fall 2024)	I	87	86	86	86	80	78	72	82.1	5.7
2	11	11	0	Coast Highway 101 Sidewalk Infill (A St to Marcheta)	Fill in 0.5-miles of sidewalk between El Portal St and A st. This cost removes the area that will be completed by private development.	Engineering	Traffic	MAP	Bike and Pedestrian Mobility	\$ 300,000	Yes	Yes	*There is a AC road edge here, but people frequently use the edge for parking. Not in the MAP Top 35 citywide projects.	I	85	73	79	79	86	86	86	82.0	5.1
16	7	12	-5	Leucadia At-Grade Crossings [Donut Chart JJ: Rail Safety Study At-Grade Crossings (Leucadia)]	There is a high volume of pedestrian and cyclist activity in the area, but there is a 1.3-mile gap without a safe, legal place to cross the railroad tracks. This project would construct two crossing locations at Grandview/Hillcrest and Glaucus. These locations were selected based on community input gathered through the City's Cross Connect study. This project will require coordination with North County Transit District (NCTD) and BNSF Railway; and requires approval from the California Public Utilities Commission (CPUC).	Engineering	CIP	Donut Chart	Bike and Pedestrian Mobility	\$ 6,000,000	Yes	No	*This project gets bike and peds across the tracks in Leucadia.	I	63	70	70	100	100	84	86	81.9	14.8
3	9	13	-4	Coast Highway 101 Sidewalk Infill (Chesterfield Dr to South Cardiff)	Fill in 0.9-miles of sidewalk between Chesterfield Dr and ~600 ft north of South Cardiff Beach	Engineering	Traffic	MAP	Bike and Pedestrian Mobility	\$ 1,600,000	Yes	Yes		I	85	79	79	79	86	79	86	81.9	3.6
59	15	14	1	USACE 50-Year Storm Damage Reduction Project (San Diego County, CA Project)	This project will improve public safety in the study area by reducing the threat of life-threatening bluff failures caused by wave action against the bluff base as well as reduce coastal storm damages to property and infrastructure along the study area shoreline and the bluff top, prior to the need for emergency action. It will also reduce coastal erosion and shoreline narrowing to improve recreational opportunities for beach users within the study area. Beach fill for 7,800 feet of shoreline from Beacon's to D Street. The primary goal of the San Diego County Storm Damage Reduction Project is to add sand to the eroding shoreline, with the aim of attenuating waves that further erode the coastal bluffs and providing more useable beach sand for safer beach conditions. The Project is a collaboration between the U.S. Army Corps of Engineers (USACE) and the cities of Solana Beach and Encinitas, with receiver sites located in both cities. In Encinitas, the Project involves the construction of a 50-foot-wide beach fill using 340,000 cubic yards of compatible sand borrow from offshore, with renourishment every 5 years on average over a 50-year period.	Development Services	Coastal Management	Coastal Management Presentation to ITF	Coastal Management	\$ 50,000,000	Yes	N/A	\$50 Million for next nourishment \$25 Million in Federal match City match unknown State Grant match unknown. 33	54	16	38	Safe Routes to School Sidewalk Program (Annual Project) [Donut Chart Annual]	Implement mobility improvements near schools based on safe routes to school evaluations.	Engineering	CIP	Donut Chart	Bike and Pedestrian Mobility	\$ 2,000,000	No	N/A		I	64	49	64	94	100	92	92	79.3	19.8
13	10	17	-7	La Costa Avenue Pedestrian Path Construction (I-5 to 101)	Construction of 0.5 miles of 4-foot-wide decomposed granite pedestrian path, buffered bike lanes, and twelve new ADA compliant curb ramps.	Engineering	CIP	CIP Presentation to ITF	Bike and Pedestrian Mobility	\$ 700,000	Yes	No	*This is south side only, decomposed granite ped path.	I	64	70	71	86	86	85	86	78.3	9.6
5	23	18	5	Coastal Rail Trail (Encinitas Blvd to La Costa, East Side of Tracks)	The coastal rail trail currently runs from Chesterfield Dr to Santa Fe Dr. Santa Fe to the train station is funded. Train station to Encinitas Blvd is existing sidewalk. This project would create a new trail Encinitas Blvd to La Costa Ave.	Engineering	CIP	CIP Presentation to ITF	Bike and Pedestrian Mobility	\$ 16,000,000	No	Yes	*The intent of this project is to have CRT parallel Vulcan this entire way.	I	78	78	57	92	86	71	86	78.3	11.6
81	13	19	-6	Fire Station #1 Replacement	The station was built in 1957, making it the oldest station. The station exhibits significant cracking in Concrete Pavement showing lack of structural support. The structure exhibits signs of aging and fatigue. The hose tower is unreinforced masonry and in poor condition, which compromises the integrity of the structure. Settling at the southeast end of the building may impact the sewage line. The exterior surface finish is deteriorating, and the exterior wood trim displays cavitation. Window louvers have rotting frames which allows heavy air and moisture leakage. The roof is recommended to be replaced between 2021 and 2024. There are trespassing and vandalism problems due to issues with the roof. The electrical system has aged since 1957. Plumbing throughout the station is old and presents maintenance issues. The age of the fire station and its infrastructure does not provide an energy efficient business mode. Solar Panels, LED lighting, and energy efficient appliances are needed. The bathroom and shower areas are communal which limits diversity, equity, and inclusion efforts.	Fire	Fire	Fire Presentation to ITF	Facility Improvements	\$ 20,000,000	Yes	N/A		B	84	85	85	71	71	85	65	78.0	8.7

108	65	20	45	Leucadia Blvd Roundabout at Hygeia (Roundabout and Pedestrian Improvements) [Donut Chart Y and Donut Chart Z]	This project will construct a roundabout at Leucadia Blvd & Hygeia Ave in Leucadia. The intersection will be regraded to provide a flatter road profile for the roundabout. The project includes landscape enhancements and sidewalk improvements. Benefits include improved safety for vehicles and cyclists by eliminating left turns and reducing conflict points, better pedestrian mobility through the corridor, improved traffic flow by removing the existing stop sign, enhanced aesthetics through new landscaping, trees, and improved street lighting, and reduced greenhouse gases by eliminating required stopping.	Engineering	CIP	Donut Chart	Roadway	\$ 5,400,000	No	Yes	*Design and permitting is complete for this project. Need to identify construction funding.	I	72	64	79	86	93	73	79	78.0	9.6
29	38	21	17	Rail Corridor Cross Connect Grant (And Implementation) [Donut Chart MM]	The Cross Connect Implementation Plan determined 20 potential projects on the LOSSAN rail corridor to ultimately provide quarter-mile spacing between crossings. The 20 projects consist of 8 crossings providing east-west access across the rail corridor and adjacent roadways, as well as 12 connectors to complete network gaps and facilitate access to the crossing locations.	Engineering	CIP	Donut Chart	Bike and Pedestrian Mobility	\$ 74,030,000	No	N/A	Implementation Plan includes a prioritized list of the 20 projects. Some of the 20 projects (Verdi, La Costa) are represented individually in the CIP projects list. Proj #: WC19D Remaining Projects: Bishop's Gate Rd, Sanford St/Jupiter St, Daphne St/Basil St, Marcheta St/Orpheus Ave, A St/Sunset Dr, Birmingham Dr, Leucadia Blvd, D Street, and Verdi Ave improvements around the current crossing. (2020\$)	I	57	71	70	92	85	77	92	77.7	12.9
83	3	22	-19	Fire Station #6	Requires a new fire station more centrally located (ideally in Olivenhain), a type 1 Fire Engine (\$1.2M), Type 3 Fire Engine and an Engineer to the current staffing model. It is located in privately owned commercial strip mall which means the fire department could be given a 90-day notice to vacate at any time with no alternatives. Rent is \$9,000 per month. It does not allow for diversity, equity, and inclusion initiatives, since there is only one bathroom. History of asbestos and black mold issues. The hose and pump capacity of the current fire engine is not sufficient to fight fires. Location important for addressing wildfire hazards.	Fire	Fire	Fire Presentation to ITF	Facility Improvements	\$ 14,200,000	Yes	N/A		B	84	85	71	87	71	79	65	77.4	8.5
101	70	23	47	Birmingham Drive Complete Streets [Donut Chart AA]	Design and construction of a new sidewalk on both sides of Birmingham Drive from Carol View Road to San Elijo Avenue, landscaping, improved street lighting, and a roundabout at the Newcastle Avenue and Birmingham Drive intersection. The project includes undergrounding of utilities on Birmingham Drive over the project length to improve accessibility for pedestrians and overall project aesthetics. Design features provide for stormwater treatment through landscaped rain gardens.	Engineering	CIP	Donut Chart	Roadway	\$ 12,000,000	No	Yes	*Design and permitting is complete for this project. Need to identify Construction funding.	I	64	65	85	72	100	79	71	76.6	12.7
64	16	24	-8	Lake Drive Storm Drain Replacement [Donut Chart HH]	Replacement of 2,000 feet of corrugated metal pipe from Lake Drive to Interstate 5 to maintain state of good repair. This project will replace the existing metal storm drain which runs through the bottom of the canyon with underground reinforced concrete pipe. Twelve new permanent inlets and a detention basin will be added just downstream of Lake Drive to reduce storm flow velocities and flooding. An access roadway will be constructed along the new pipe to allow access for maintenance of the new structures and detention basin. The project will also reconnect existing trails and restore habitat for sensitive vegetation and species in the area.	Engineering	CIP	Donut Chart	Drainage	\$ 7,000,000	Yes	N/A	Needs Construction funding. Significant environmental costs. 90% design complete and in permitting. AKA Lake Dr Storm drain Repair AKA Lake Dr Storm drain Improvement	B	85	70	64	87	79	86	64	76.4	10.3
60	14	25	-11	CMP Lining/Replacement (All City)	124 CMP Storm Drain lines needing maintenance. CMP pipes are subject to corrosion, which can lead to pipe failure and sinkholes.	Engineering	CIP	CMP Presentation to ITF	Drainage	\$ 4,800,000	Yes	N/A		B	63	63	72	86	78	86	85	76.1	10.3
23	21	26	-5	Nardo Road Sidewalk Infill From Melba Rd to Santa Fe Dr (West Side) [MAP Rank 9, MAP Pedestrian #45]	This project would construct sidewalk on the western side of Nardo Road. Given that Nardo Road abuts San Dieguito Academy High School, this is an area with a significant amount of pedestrian activity.	Engineering	Traffic	MAP	Bike and Pedestrian Mobility	\$ 800,000	Yes	No	*There is existing sidewalk on the east side of Nardo (on the school side).	I	77	64	70	92	71	72	86	76.0	9.8
37	18	27	-9	Saxony Road Sidewalk Infill (La Costa to Leucadia Blvd) [MAP Ranks 7 & 20, MAP Bike #4 & #8]	This project will create a continuous sidewalk from La Costa Ave to Leucadia Blvd by adding a missing sidewalk on the east side of Saxony Rd for approximately 1,000 feet south of La Costa Avenue, as well as building sidewalk from just north of Qual Drive to Leucadia Blvd. La Costa Avenue has sidewalks from the intersection with Saxony Road to just west of Interstate 5, as well as east to the intersection with El Camino Real and beyond. Saxony Road also has a sidewalk which begins at the southern terminus of this project. The mobility Element Street Typology identifies Saxony Road as a Suburban Collector. This project aims to fill the missing gap in the sidewalk network and create greater north-south intra-community connectivity.	Engineering	Traffic	MAP	Bike and Pedestrian Mobility	\$ 1,355,900	Yes	No	Saxony sidewalk infill projects combined, as suggested in the MAP presentation.	I	70	64	70	71	79	85	92	75.9	9.9

112	50	29	21	Santa Fe Drive Corridor Improvements (Roundabout at Crest and Other enhancements) [Donut Chart W]	The eastern phase runs along a 3,500 linear foot section of Santa Fe Drive from Evergreen Dr to El Camino Real. The project will focus on connection to schools & will improve mobility for pedestrians, bicyclists, & vehicular traffic, while also improving safety & connectivity. Improvements include the construction of new bikeways (separated where possible), and new sidewalks, storm water management measures through new landscaping and trees, and educational outreach and active transportation encouragement activities for SDUHSD students. The project will also construct new curb, gutter, AC berm and driveways. Drainage improvements will improve runoff capture and conveyance, and new bioretention cells will be constructed to improve water quality. The project will result in improved mobility and safety throughout the entire corridor, including access to schools, through new bikeways and sidewalks and intersection improvements.	Engineering	CIP	Donut Chart	Roadway	\$ 2,000,000	No	No	*This does not include the already funded phases of work that are starting construction now. This is for additional Santa Fe improvements. Proj # CSS19E	I	70	41	70	86	100	85	70	74.6	18.6
65	41	30	11	North Coast Highway 101 Drainage Improvements (North End) [Donut Chart X]	1.5 miles of new 66" stormwater mainline under North Coast Highway 101 to store runoff, larger inlets to drain roadway faster, new inlets at local low points, green street improvements to improve water quality	Engineering	CIP	Donut Chart	Drainage	\$ 15,000,000	No	N/A	*This would extend the new drainage beyond the limits that will be completed as part of Leucadia Streetscape. Proj #CD23A	B	64	70	64	94	79	85	64	74.3	12.0
82	20	31	-11	Fire Station #4 Replacement	Exhibits minor concrete cracking and structure members are old and deteriorating. Siding on the fire house displays significant degradation. Siding touches concrete slab promoting mold growth from built up moisture. Roof tiles were in need of minor repair in 2014, this is still the case today. Falling tiles present a hazard. Replacement of the flat asphalt roof was recommended between 2011 and 2014. The HVAC system is due for replacement in 2020 and the electrical system has aged since 1979. Multiple slab leaks and sewer issues have occurred over the last 10 years. Interior finishes are old, deteriorating, and not aesthetically pleasing. Moisture damage from exterior deterioration, plumbing, and sewer issues have created a mismatch of interior finishes. The bathroom and shower areas are communal which limits diversity, equity, and inclusion efforts. The age of the fire station and its infrastructure does not provide an energy efficient business mode. Solar Panels, LED lighting, and energy efficient appliances are needed.	Fire	Fire	Fire Presentation to ITF	Facility Improvements	\$ 20,000,000	Yes	N/A		B	84	85	71	64	71	79	65	74.1	8.6

99	47	54	-7	Citywide Rail Corridor Quiet Zone [Donut Chart FF]	The aim of a quiet zone is to reduce noise around pedestrian- and roadway-rail grade X-ings for nearby residents/businesses. A quiet zone is a section of a rail in which train horns are not routinely sounded when trains are approaching a grade crossing. Quiet zones do not eliminate the use of train bells at crossings. Because the absence of a train horn increases the risk of a crossing incident, an analysis is done to measure that risk and assess whether additional safety measures may be needed. Quiet Zone Crossings at: • Leucadia Blvd. roadway crossing • Encinitas Station pedestrian crossing • East D Street roadway crossing • East E Street roadway crossing • Verdi/Montgomery Avenue proposed pedestrian crossing	Engineering	CIP	Donut Chart	Rail Corridor	\$ 11,000,000	Yes	N/A	*The City has funded design. This project needs Construction funding.	I	47	62	41	92	55	77	71	63.6	17.8
