The vision of the Leucadia Streetscape project is to celebrate the City's arts and culture, history, charm and character through re-establishing the historic tree canopy, providing gathering spaces for our residents, improving accessibility and connectivity in Leucadia, include drought tolerant landscaping and creating better access for our businesses.

PROJECT OVERVIEW

The Leucadia Streetscape Project includes a number of improvements aimed at preserving and revitalizing 2.5 miles of North Coast Highway 101. Project construction comes after over 15 years of work by City staff and the Leucadia community to create a plan that makes it easier and safer for community members to get to the beach and enjoy the shops and restaurants on Coast Highway 101, whether in a car, on a bike or on foot.

The City has completed construction of the first segment of improvements called "Segment A North" (Phase 1) between Marcheta Street and Basil Street.

The City has also completed the Safety and Mobility Enhancements interim project that brought "Segments B & C" between Basil Street and La Costa Avenue into alignment with the vision of Streetscape in a quick and cost-effective way.

PROJECT GOALS

Reduce frequency and intensity of flooding

Increase access to the coast

Enhance safety and mobility in the rail corridor

Add parking, landscaping and calming measures

Preserve and revitalize North Coast Highway 101

PROJECT BUDGET

The Leucadia Streetscape Segment C Project construction phase budget for Segment C including drainage is \$23 million. The City is proposing to fund it through grants and loans.

PUBLIC OUTREACH

There are a number of ways the community can stay informed about the project throughout construction:
